## MOTHER'S DAY AT STINSON BEACH

With the temperature in San Rafael rising to 86 yesterday for the warmest day so far this year, there was a Mother's Day exodus to Marin's beaches. This was the scene at Stinson Beach, where family groups were numerous among the hundreds playing in the surf and basking on the sand. The temperature was headed for a repeat performance today, with a noon reading of 82.

# Attack Burglary Suspect Arrested

## $11,000 Bail In Charges

A San Rafael man, sought in the burglary of a Corte Madera refrigeration service and attack on its owner, was arrested early yesterday while driving a station wagon carrying guns, $500 in checks and other items stolen several hours earlier from the Railway Express office in San Rafael, police said.

Alex Keys, 36, of 7 Mariposa Road, remained in Marin County Jail today in lieu of $11,000 bail on a variety of charges.

San Rafael police told this story:

While having coffee in a lunchconette near Keys' home about 5:30 a.m. yesterday, Lt. Thomas Stephenson observed Keys leave his residence, enter a yellow station wagon and drive east on Jordan Street.

**GIVES CHASE**

Stephenson, knowing Keys was sought by Corte Madera police in connection with the April 29 burglary of Bill's Refrigeration Service at 1912 Redwood Highway, gave chase in his car. When Keys entered Highway 101 and headed south, Stephenson radioed ahead to Corte Madera police.

Corte Madera Patrolman Harvey L. Zion Jr. halted the station wagon south of Fifer Avenue. In the car, police said, were burglar tools, two .38-caliber revolvers, checks, and a narcotics syringe.

**CHECK PREMISES**

Police identifying the loot as belonging to the Railway Express office at 35 Jordan Street, San Rafael, checked the premises and found the safe there had been pried open and rifled of its contents.

Besides the articles in the car, $585 in cash was found on Keys by police, who said it also was believed stolen from the Railway Express safe.

In the Corte Madera burglary, Bill Williams, owner of the refrigeration service, was attacked by a man wielding two screwdrivers when Williams surprised the culprit in his shop. Williams escaped with scratches.

The burglar, named in a warrant issued by Corte Madera police as Keys, fled on foot, leaving another station wagon loaded with plumbing supplies removed from Williams' shop.

Keys was held today on charges of burglary, assault with a deadly weapon, receiving stolen property, possession of burglary tools, possession of a firearm by a felon, violation of parole imposed after an earlier burglary, and possession of narcotics paraphenalia.

MYSTERY HOARD — A total of $41,873.69, found in the possession of a man who cut his wrists in an apparent suicide attempt, was counted today at Wells-Fargo Bank in San Rafael by Sheriff Louis P. Mountanos, Undersherif Sidney Stinson, and bank manager Daniel C. Davis.

## Probe Turns Up Big-Money Hoard

A hoard of $41,873.69, most of it in big bills, was found by Marin County sheriff's deputies Saturday in a mysterious follow-up to an apparent suicide attempt.

The money was in the possession of Lawrence Evans Zane, 25, of 101 Marinero Circle, Tiburon.

Lt. Bill Johansen of the sheriff's department said Zane cut both wrists deeply at his apartment, then drove at 11:35 a.m. to a doctor's office in Tiburon to seek medical help.

Deputies were called to Marin General Hospital when Zane fought against treatment there. Because Zane was incoherent, Johansen said, he was ordered sent to Napa State Hospital for treatement.

In a routine search of his belongings, startled officers found $13,563.69 in Zane's pockets. They got Zane's permission to search his apartment. There they found another $28,310 in a tin box, including two $1,000 bills, seven $500 bills and 148 $100 bills.

The money, sealed in two bags, was placed in safekeeping at Wells-Fargo Bank in San Rafael today by Sheriff Louis P. Mountanos.

Johansen said some of the bills were still in wrappers from Seattle banks.

Zane has been in Tiburon since November, but held no job and was a recluse, Johansen said.

Zane's parents were killed in a European airplane crash in 1946 and the money may have come from an inheritance, Johansen said.

Zane has a history of mental problems in Washington, he said.

Zane's only known relatives are grandparents in Seattle.

A sanity hearing will be held for Zane when he is returned from Napa.

## New Battles Raise Yank Casualty List

SAIGON (AP) — Heavy ground fighting and severe Communist barrages continued to cause sharply increasing American casualties as a big new battle appeared to be building up between the U. S. Marines and North Vietnamese regulars just south of the demilitarized zone.

The Marines reported 12 dead and 92 wounded in attacks yesterday, and that did not include casualty reports from one of the day's sharpest pitched battles with the North Vienamese.

Only 27 Communists were reported killed.

In the air, the U. S. Command announced the loss of three planes yesterday—matching the number of Soviet-built MIG jets downed by American airmen in dogfights over the North.

One U. S. jet was lost to ground fire in the South, making 179 combat planes downed there since the war began. In the North, one jet was lost to ground fire and one to unknown causes, making 541 combat planes lost over North Vietnam.

Hanoi claimed seven U. S. jets were downed.

The three MIGs reported downed brought the American score for the weekend to 10 kills and two probables. The Air Force announced seven Red jets were downed Saturday and two probably were brought down.

The three MIGs were downed yesterday during raids four miles from the heart of Hanoi.

U. S. Marines reported killing 110 North Vietnamese regulars in a running battle southwest of

## Continues Recovery

WASHINGTON (AP) — Former President Dwight D. Eisenhower continues to improve, but will be kept in the hospital for a complete physical examination, it was announced today.

## Treasury Boss Makes Plea For Income Tax Surcharge

WASHINGTON (AP) — Secretary of the Treasury Henry H. Fowler asked Congress today to raise the ceiling on the national debt to $365 billion, up $29 billion from the present ceiling.

Beside asking for one of the biggest single increases in history, Fowler recommended that the new ceiling be made permanent.

At present the permanent ceiling is $285 billion, and various temporary increases have been granted on top of that.

The latest of these expires June 03, at which time, Fowler said, the debt is expected to be about $327 billion.

Fowler appeared before the House Ways and Means Committee.

Fowler took the occasion to repeat strongly the recommendation for a six per cent income tax surcharge to hold down the deficit. Even with the surcharge, he said, a rough estimate of the red ink margin for the fiscal year beginning July 1 is $11 billion.

Fowler said the surcharge "will be eneded and the economic evidence generated in the months since it was proposed has strengthened my conviction of this score."

The word "will" was underlined in the written text of Fowler's testimony.

He did not say anything about the effective date. It generally has been concluded that Congress will not enact such a measure by July 1, the target President Johnson originally set.

Discussing the government's money forecast, Fowler told the committee, which handles all tax legislation, the surcharge remains a definite part of the administration fiscal program.

Fowler proposed one more sharp departure from present fiscal rules — a breach in the ceiling of 4¼ per cent interest the Treasury is allowed to pay on borrowings for more than five-year terms.

## Reds Order Hong Kong To Give In To Demands

HONG KONG (UPI) — Threatening to humble the British crown colony as it did nearby Portuguese Macao, Communist China today demanded Hong Kong surrender to demands by leftwing rioters or face "grave consequences."

Hours after Peking issued the demands, Red Guard-type gangs of Chinese youths ran howling into the streets of Hong Kong's Kowloon district and smashed the windows of a U.S. banking office (American Express) and a post office. Cheered on by a large crowd, the youths then plastered up Chinese Communist posters and knocked down traffic signs. The rioting ending 24 hours' calm which followed three days of street violence.

Peking in a message to London and in press reports linked the long-expected showdown to British authorities allowing U.S. Navy ships to use the great port as a rest spot from Vietnam war action.

"If the British government and the Hong Kong British authorities do not behold a pale horse standing before the cliff, then they will definitely come to no good ends," declared Red China's most authoritative newspaper, Peking's Peoples Daily.

At Peking, Mao Tse-tung's foreign ministry roused British Charge d'Affaires D. C. Hopson before dawn today and handed him four demands it said Britain must accept "unconditionally" or face Communist China's wrath:

"Immediately accept all the just demands put forward by Chinese workers and residents in Hong Kong."

"Immediately stop all fascist measures."

"Immediately set free all the arrested persons."

"Punish the culprits responsible for these sanguinary atrocities, offer apologies to the victims and compensate for all their losses; and guarantee against the occurrence of similar incidents."

The demands matched those Peking forced tiny Macao, the other European beachhead on mainland China, to accept a few months ago after heavy rioting in the Portuguese territory.

In Hong Kong, today's rioting all but wiped out fears that the

## Runoff Increases From the Sierra

SACRAMENTO (AP) — The runoff from melting snows in the Sierra increased today with more sunny weather, but state water officials said they expected no serious flood danger this week.

Temperatures in the 60s were forecast during the afternoons in the mountains, where deep snowbanks hold a potential for flooding—particularly along the San Joaquin River.

## Officials Eye Bridge Funds For Commuting

By WAT TAKESHITA

SACRAMENTO—Golden Gate Bridge and Highway District directors, legislators and county supervisors agreed today that improvement of bus transportation with the help of bridge district funds is the best interim solution to Marin's commute problems.

The group disagreed on the need for a second deck on the Golden Gate Bridge. However, Sen. John F. McCarthy, R-San Rafael, cut the argument short.

"I want this to be a peaceful meeting," said McCarthy, who had arranged the get-together at the Capitol.

**REPORTS ON STUDIES**

Richard M. Zettel, executive secretary of the Bay Area Transportation Study Commission, reported on studies being made for the commission. He said the first step in interim improvements for San Francisco-Marin transportation would be an improved bus service, but it would require public subsidy.

Thomas D. Hardcastle of Novato, bridge director, pointed out that the bridge tolls now provide $1 million annual revenue and will bring in more than $4 million a year after construction bonds are paid off in 1971. He urged the legislators to pass a resolution approving the use of Golden Gate Bridge District funds for subsidizing the bus improvements.

**NO COMMENT**

No one spoke against the resolution, but Sen. Randolph Collier, D-Yreka, said he would not want to make any comment.

Assemblyman John F. Foran, D-San Francisco, said he, too, had some reservations.

Foran objected to second decking of the bridge.

Hardcastle said a second deck would be needed to accomodate the buses. (It would also require a new bond issue.)

"It's absurd to build a second deck to accomodate buses," countered Marin County Supervisor Thomas T. Stoarer.

Supervisor Peter H. Behr said he, too, is a dissenter on the second deck proposal. At this point Chairman McCarthy cut off the debate.

The question of extending the life of the bridge district beyond 1971, when the bond issue will be retired, did not come up for discussion.

## Concealed Cars For CHP Advances

SACRAMENTO (AP) —The Assembly voted 41-21 today to permit the California Highway Patrol to use some patrol cars painted any color to snare speeders.

A bill by Assemblyman William Ketchum, R-Paso Robles, would permit the highway patrol to partially conceal the identity of 20 per cent of its cars. The action sent the bill to the Senate, which has killed similar legislation in the past.

## Soviets Launch Unmanned Probe

MOSCOW (AP) — The Soviet Union launched today No. 158 in its unmanned Cosmos series of earth satellites for space research.

NORODOM SIHANOUK
Asks Referendum

## Challenge Reds

PHNOM PENH, Cambodia (AP) — Prince Norodom Sihanouk has challenged Cambodian Communist leaders to hold a referendum to let the people choose between communism and the present regime.

The Cambodian chief of state issued the challenge along with a sharp criticism of workers and students who spread Communist propaganda. He accused the Communists of representing the Cambodian people as poor and crushed "while the taxes here are the lowest in the world."

The prince, who is better known for his scolding of Washington than his challenges to Communists, said of the referendum: "Every one of us will accept the decision of the majority of the voters." Since Sihanouk commands the loyalty of an overhwleming majority of his people, there was no doubt of the outcome.

## Hunger Strike

WASHINGTON (AP) — Eight pacifists who took part in a sit-in at the Pentagon last week were on a hunger strike today at the District of Columbia jail.

Six men have refused to eat since Friday noon, and Charles Matthei, 19, of Voluntown, Conn., and Suzanne Williams, 19, of Leverett, Mass., insist they'll decline both food and water until they are released.

A total of 20 antiwar demonstrators associated with Committee for Nonviolent Action are in jail as a result of the Pentagon picketing and sit-in. They were charged with loitering, sleeping and assembling on federal property and face sentences of up to 30 days, plus $500 fines.

## Nimbus Birthday

WASHINGTON (AP) — Today is the first birthday of Nimbus 2, the weather satellite, and the spacecraft has sent back more than a million pictures to stations at Fairbanks, Alaska, and Rosman, N.C.

Scientists at the National Aeronautics and Space Administration said Nimbus 2 was designed for only about six months duty, but its daytime camera is still working normally.

The nighttime pictures from space are no longer coming in, however, because of a malfunction in tape-recording equipment.

## Wallace's View

WASHINGTON (AP) — Former Alabama Gov. George C. Wallace says "when a college professor stands and says, in a college in this country, 'I long for a victory of the Viet Cong Communists over American servicemen,' he is a traitor."

Wallace said if he were president he would order the attorney general to bring treason charges against those who give overt aid to the enemy such as donations of money, clothing and supplies. He said he has no quarrel with honest dissent.

Wallace also said during an interview yesterday on ABC's "Issues and Answers" that he was encouragedb y his recent speaking tour in the Northeast. But he added he has yet to decide whether to run for president on at third-party ticket.

## Against Bias

WASHINGTON (AP) — Secretary of Labor W. Willard Wirtz has told government agencies that beginning today they are not to consider bids from firms which maintain segregation facilities, and that contractors must certify in their initial bids that they are not violating this policy.

## Storm Toll

NEW DELHI (AP) — The casualty toll from a violent hail and windstorm that swept out of the Himalayan foothills Saturday night stood at 32 dead today with up to 350 injured in two northern Indian states.

Cleanup operations were under way in eastern Uttar Pradesh State and famine-stricken Bihar State, where the storm was whipped along by winds in excess of 100 miles an hour.

Hardest hit was Kanpur, 250 miles southeast of New Delhi, where at least 25 persons were killed and more than 100 injured. Kanpur streets were littered with birds killed by hailstones the size of tennis balls.

There was one good effect. The storm brought badly needed rain to the drought plagued area.

## Huks Kidnap 30

MANILA (AP) — The Communist Huks have kidnaped some 30 persons and are believed to have killed a newspaper editor, the Manila Bulletin reported today.

The newspaper said Nicasio Tuazon, editor of the Angeles City Mail, was kidnaped and is believed to have been killed because he knew too much about the Huks, a terrorist group that collapsed 10 years ago but has revived in central Luzon.

The Bulletin, in a report from Pampanga Province in the heart of Communist territory, said the kidnapings occurred during the past five months in the area of Angeles City. The twwn is just outside the U.S. Clark Air Force Base.

## Arabs Demonstrate

NEW DELHI (AP) — Shouting Arab and Indian students demonstrated outside a reception celebrating Israel's independence day yesterday and prevented many guests from attending.

Mounted police were called to disperse the demonstrators, who threw stones at the house of a Sikh writer where the reception was held. They shrieked "Down with Israel!" and "Anyone who goes in is a traitor!" as guests arrived.

Indian police pleaded with demonstrating Arab students not to abuse Indian hospitality, but no arrests were made.

## ABC Violation Fine Accepted

# Sun-Drenched City Beach Scene Of Rioting Youths

SAN FRANCISCO (AP) — A beach riot by 1,000 youths, sparked when police tried to break up a fight, injured three officers and two bystanders yesterday before it ended.

Two youths were arrested on suspicion of looting and 12 others on charges of inciting a riot, battery and resisting arrest.

One hundred police, armed with shotguns, nightsticks and tear gas, sped to Playland-At-The-Beach and restored order after two hours. The officers did not use the tear gas or the guns but were aided by police dogs in clearing the area.

Before it was over, windows were smashed, resort booths robbed and some bottles were tossed at police.

At the same time, 1,000 hippies thronged the Panhandle section of Golden Gate Park, causing police at first to report trouble also brewing there. But later police corrected it to "just a happening."

The beach trouble erupted after a fight broke out at a ticket booth. Youths broke windows in the booth and a girl ticket seller fled.

When three policemen arrived, "all hell broke loose," said William Silvia, Jr., 24, a Playland employee.

"There were so many people milling around you couldn't tell what was happening," Silvia recounted.

"But I did see one cop go down. The mob wouldn't let them make that first arrest."

John Ashley of San Francisco was cut severely on the head while trying to prevent theft of his wife's purse.

Another bystander, Mrs. Inez Tebino of Santa Rosa, got caught in a mob and suffered fractured ribs.

Two policemen, Francis Fahey, 43, and Harold Hamilton, 28, were cut and a third, Dennis Baker, 28, had a hand injury. All three were taken to a hospital.

A concessionaire who witnessed the beach outbreak said "It was no racial thing at first" but before it was over "some older Negroes came up and began telling some white bystanders 'you are going to get it.'"

Later in the predominantly Negro district at Fillmore and McAllister, where persons dispersed from the beach area gathered, police radio said, "some of those bottles being thrown contain gasoline." Nobody was hit.

Police moved 20 abreast into the milling mobs at the height of the rioting.

As a precaution, police had Playland-At-The-Beach closed at 7:39 p.m., 2½ hours ahead of schedule.

# Drug Maker Is Accused In Over-Pricing

WASHINGTON (UPI) —A U.S. drug firm was accused today of charging Americans twice the price the rest of the world pays for a remarkable tranquilizer that dramatically calms the mentally ill.

The pricing policies of the Smith, Kline and French Co. (SKF) on the drug "thorazine" were questioned in testimony and documents prepared for the Senate small business monopoly subcommittee.

### THREE DAYS

The panel, headed by Sen. Gaylor Nelson, D-Wis., opened three days of hearings on drug pricing with testimony from Arthur Levitt, New York state comptroller.

The tranquilizer was discovered and developed by a French firm which made SKF the exclusive licensed manufacturer of thorazine in 1954.

But a State Department survey presented to the subcommittee showed that the French firm, Rhonepoulenc, was charging Parisians 83 per cent less for the tranquilizer than mentally ill Americans pay for the SKF brand.

### OTHER NATIONS

Using the SKF price for thorazine as the base, the State Department survey determined that other nations were paying an average of 50 per cent less for the same drug.

The drug calms the violently insane, resulting in a marked decrease in inmate destruction to mental institutions. Drug treatment permits many patients to leave institutions and lead a relatively normal life at home.

According to Levitt, SKF has repeatedly refused to give state instructions price reductions for thorazine although the firm's profits from the tranquilizer have soared.

He said New York annually buys $2.5 million worth of the tranquilizer from SKF, the sole U.S. supplier of the drug.

## Princess Begins Tour Of Canada

TORONTO (AP) — Princess Alexandra, cousin of Britain's Queen Elizabeth II, arrived by plane yesterday to start a 25-day tour of Canada.

The princess, accompanied by her husband, financier Angus Ogilvy, was fashionably attired in a tangerine-pink woolen coat and matching turban.

# Grocery Prices Will Increase, Agriculture Department Says

WASHINGTON (AP)—American housewives will be paying 2 to 3 per cent more for groceries by this summer, the Agrciulture Department predicted today.

The anticipated hike in retail food prices is expected to wipe out a decline of nearly 1 per cent during the first three months of the year, then advance another 1 or 2 per cent on top of that.

For the year as a whole, the department forecasts an average jump of about 1.7 per cent in food costs above last year.

Primarily because of the projected price hikes, consumers are expected to spend about $94.6 billion for food this year compared to $91 billion in 1966.

The forecast for higher retail food prices comes at a time when prices paid farmers for food they produce are down nearly 10 per cent from last summer and seven per cent below last year's average.

Some of the expected increase in retail food prices would reflect anticipated upturns in some farm prices, particularly for meat animals. Somewhat reduced marketings of cattle and hogs are expected as a consequence of some contraction in livestock production under the pressure of prices unsatisfactory to farmers.

The department said current indications point to an increase in both production and marketing of farm commodities this year, with the upturn concentrated in crops.

Because consumer incomes went up while food prices eased off slightly, the department said consumers spent an average of 17.5 per cent of their income for food during the first quarter of the year, the lowest of record. Last year, the percentage was 18.5.

Items expected to rise later in the year besides meats include eggs, poultry and possibly some dairy products. Items expected to continue near present levels include citrus products, canned fruits, processed vegetables, potatoes and cereal products.

# Bomb, Note Found In Vegas Hotel

LAS VEGAS, Nev. (AP) — A small homemade bomb containing black powder and a note demanding $75,000 for the location of two others were found early today in a tower room at the Sahara Hotel on the Las Vegas strip.

Discovery of the note touched off evacuation of thousands of guests in Del Webb hotels in Nevada, California and Arizona.

The Clark County sheriff's office said the bomb, which contained four plastic pipes filled with black powder, was discovered after a man called the pit, or center of the casino area, and said the device was set to go off about 5 a.m.

Deputies found the bomb in room 4014. It was in a wooden box attached to a wall in a closet.

Near the bomb was a page-long typewritten note cautioning hotel officials not to try to move the bomb or to notify police.

Officers tied a rope around the box and jerked it from the wall. Then a demolition team from nearby Nellis Air Force base moved it to a service elevator and took it out the back of the building.

There was no explosion.

The demolition experts dismantled the device, and found it contained black powder.

Det. Lt. Glenn Simmons, chief of detectives at the sheriff's office, said one member of the team said the bomb was strong enough to badly damage the room, but would not have caused extensive damage to the hotel.

The note, single-spaced and typed in all capital letters, carried detailed instructions on how not to handle the bomb. It indicated the device was wired to explode if it was removed from the wall or if part of the wall was removed with it.

The note included several grammatical and spelling errors, and in several places mentioned that more than one person might be involved.

# Five Prison Inmates To Be Returned

San Quentin Prison is planning a sort of reunion, but the participants won't be happy about it.

Five of six recent San Quentin escapers will be returned to the prison within the next few days, Associate Warden James W. L. Park said today.

Latest to be caught was Ernest E. Little, 38, who escaped from the prison ranch last Dec. 4. Little was caught by Las Vegas, Nev., police, Park said, but Las Vegas sent no details of his capture.

Three escapers will be returned from Portland, Ore., this week, Park said. They are Philip Banditson, Royal Sloan and Edward Kern, who escaped March 23 from the minimum security prison farm and left a trail of stolen vehicles northward until being caught in McMinnville, Ore., March 27.

Apparently no Oregon charge will be filed against the trio, Park said, and all three have waived extradition.

Donald P. Alvarado, caught in Oakland Saturday after escaping May 1, was to be returned today, but his companion, Walter G. Castro, will be charged by Oakland police with illegal possession of a pistol.

## Meeting Reset

# New Trial Being Sought For Speck

CHICAGO (AP) — Defense counsel argued today for a new trial for Richard Speck, contending that the court should have allowed a jury to decide whether Speck was mentally competent to stand trial.

Speck, 25, a tall, blond wanderer, was convicted April 15 in Peoria of murdering eight nurses in July 14, 1966 in Chicago.

Gerald W. Getty, public defender who represents Speck, began arguments on his motion for a new trial for Speck. Getty said he has found 54 points of what he considers errors and said he will argue 24 or 25 of them.

He first turned to a hearing held in Chicago in November 1966 on the question whether Speck was mentally competent to stand trial for murder. Judge Herbert C. Paschen directed the jurors then to return a verdict of competency — meaning that Speck understood the nature of the charges against him and was able to cooperate with his counsel.

William J. Martin, assistant state's attorney who heads the prosecution team, objected to an oral motion.

The eight-week trial, drawn out by six weeks of jury selection, was held in Peoria after Judge Paschen granted Getty's request for a change of location on the grounds that a fair and impartial jury could not be seated in Cook County.

# Tribunal Gives Teens Better Trial Rights

WASHINGTON (AP) — The Supreme Court extended to juveniles today substantially the same constitutional protections given adults in criminal trials.

The landmark decision is certain to lead to broad reformation of juvenile court proceedings across the land.

The vote was 8 to 1, with three of the justices in the majority differing with the controlling opinion, given by Justice Abe Fortas in some respects.

The dissenter was Justice Potter Stewart.

Using an Arizona juvenile case as a springboard, the court concluded that juveniles, like adults, are entitled to the following Bill of Rights safeguards:

1. Notice of the charges placed against them.
2. The right to have an attorney's assistance.
3. The right to confront and cross-examine complainants and other witnesses.
4. Protection against self-incrimination, including the privilege of remaining silent.
5. The right to a transcript of the proceedings.
6. The right to have the case reviewed in higher courts.

Fortas announced the historic decision to a courtroom packed with tourists and newly admitted attorneys.

"Neither the Bill of Rights nor the U.S. Constitution is for adults only" he declared dramatically from the bench.

Fortas' majority opinion, a little more than 55 pages long, traced juvenile court history and the largely informal procedures followed by juvenile court judges in dealing with youngsters accused of crimes.

He noted that informality stems from the concept that the state was considered as a sort of substitute parent, with the judge careful to protect the child from the strict procedures followed when adults are charged with crime.

Although "the highest motives and most enlightened impulses led to a peculiar system for juevniles," Fortas said, "juvenile court history has again demonstrated that unbridled discretion, however benevolently motivated, is frequently a poor substitute for principle and pocedure."

Fortas cited a report by President Johnson's commission on crime in the District of Columbia to show that the informal juvenile court procedure does not effectively reduce juvenile crime or rehabilitate offenders.

In his dissenting opinion, Stewart said the decision imposes upon thousands of juvenile courts throughout the nation restrictions that the Constitution made applicable to criminal trials and added:

"I believe the court's decision is wholly unsound as a matter of constittutional law, and sadly unwise as a matter of judicial policy."

Marijuana turned up on the Sausalito youth during a search at county jail, police said. Besides the marijuana charge, the Sausalito youth was held on a Modesto traffic warrant and both were charged with curfew violation.

# Realtors Threatening Fair House Initative

SACRAMENTO (UPI) — The California Real Estate Association today threatened to spearhead another initiative campaign against California's major open housing legislation unless the legislature acts to repeal the 1963 Rumford Act.

President Reed Robbins, Stockton, said a future campaign would be aimed at repeal of specific provisions of the law, apparently to avoid the constitutional questions raised by Proposition 14, which gain 2-1 approval by the voters in 1964.

Robbins said the association, prime backer of the 1964 initiative which nullfied the state's open housing law but which later was overturned by the California Supreme Court, has not supported groups advocating a new initiative so far.

But, he said, the association will "probably" support such a move if the Assembly does not repeal the Rumford Act.

The Assembly Governmental efficiency and Economy Committee Wednesday will hear Senate-passed legislation to repeal the law. At the same time, the committee is set to hear a compromise bill by Assemblyman William T. Bagley, R-San Rafael.

Robbins said the CREA "can't support the Bagley bill." But he said the organization "hasn't given much thought" to whether it would favor an initiative to repeal the Bagley bill if it passes.

"The basic philosophy of the Bagley bill is just as bad as the Rumford Act," he added.

Robbins said the CREA would support an initiative "if the property owners demand it." He said the organization was not trying to drum up such a demand.

The legislature plans to grapple with other major issues this week. Action primarily centers in the 80-member Assembly.

Also set for hearing are bills to repeal the death penalty and Assemblyman John G. Veneman's $1.5 billion added tax bill, still containing the withholding feature opposed by Republican Gov. Ronald Reagan.

## RIOTS

Continued from page 1

trouble might be slackening following a day of relative calm. Last week the youth gangs hurled Molotov cocktails, battled police and stormed at factories closed because of agitator demands. Today's Whitsun hoilday had opened quietly.

But 500 to 600 workers today waved little red books of Mao thoughts and shouted slogans in front of a cement company and broke windows in a bank branch.

Observers here said the confrontation forced by Peking could lead to large-scale violence among the 3.7 million Hong Kong residents, most of who are refugees from Communist China.

## WAR

Continued from page 1

Da Nang. The Marines have swept over a hill in the area and are pushing through a jungled valley toward the Ly Ly River.

The fighting there has been going on since last Friday. The Reds have clung doggedly to hidden bunkers and trenchlines buried in the jungles and along low ridges of the area.

Marine headquarters reported a patrol yesterday discovered a fresh Communist burial ground alongside the battlefield. They counted 73 bodies in North Vietnamese uniforms. This brought to 351 the number of Reds reported killed in the fight, in which 69 Marines have been killed and 311 wounded.

Similar grim fighting was taking place in Quang Tri Province below the demilitarized border. Probes and artillery and mortar fire repeatedly raked the Marine camps at Gio Linh and Con Thien just south of the zone.

The Marine area south of the demilitarized zone has been the scene of much of the fighting in Vietnam in the past two weeks. Intelligence reports say about 35,000 North Vietnamese regulars are in and around the zone, and the Marines are making a sustained, determined effort to drive out those in South Vietnam.

The 10 MIGs downed over the weekend brought the total for the war to 60.

Pilots returning to Da Nang after Sunday's raids on the North said they flew through "wall-to-wall" MIGs. The North Vietnamese have 88 to 100 MIGs on hand, intelligence reports indicate, with about 20 being late-model MIG21s and the rest the slower MIG17s. Replacements for downed MIGs are probably coming from Communist China.

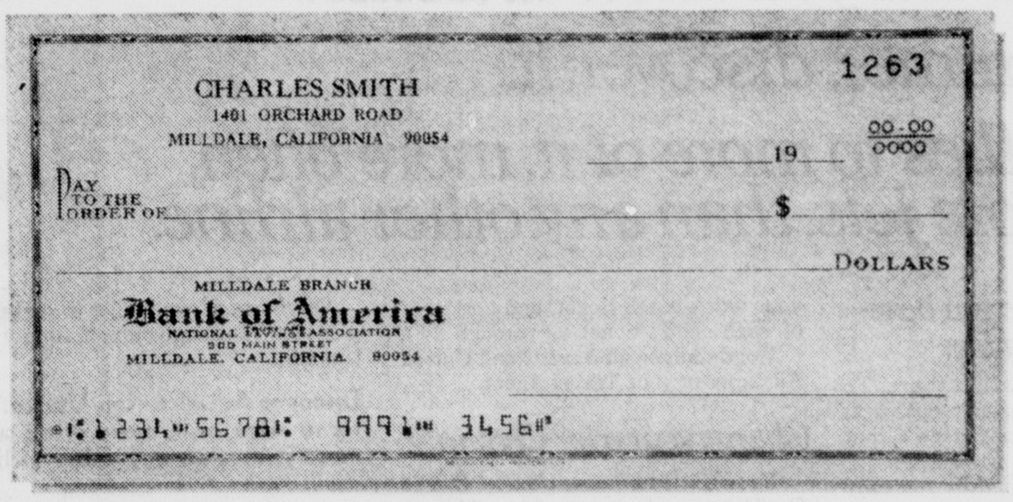
## Announcing Custom Credit — another new BankAmericard® service.



As a new service to specially qualified BankAmericard® customers, Bank of America is now making available the convenience of a Custom Credit Account. This new plan lets you use your BankAmericard to obtain extra cash—just by writing a check. You and your family will have established a "line of credit"—with money to draw on as you need it. When your checking account is depleted, a BankAmericard Cash Advance will be added to it automatically.

**Rainy Day Money**

A Custom Credit Account is simply the BankAmericard way of insuring that money is immediately available to you to meet emergencies or take advantage of unexpected opportunities. It allows you to write checks for more than your checking account balance. When you do, your account is automatically replenished with cash—in multiples of $100—which is then charged to your BankAmericard account. That way, you consolidate extra expenses in your BankAmericard account—widely recognized as an efficient and convenient way to manage personal finances. A Custom Credit Account won't cause you any extra paperwork, either. You'll still receive only the normal BankAmericard and Checking Account statements.

**How can you qualify?**

If your financial standing is sound and you have sufficient credit references, you are probably eligible for a Custom Credit Account. Even if you don't already have a BankAmericard—or a Bank of America checking account—it will take just a few minutes to apply. Why not look into it—at any branch of Bank of America.

# LBJ's Church Visit On Stormy Night

WASHINGTON (AP) — President Johnson's worries about the threat of World War III and his late-hour visit to pray at a Roman Catholic church on a stormy night have been disclosed in newly published reports.

The time was last June 28, a few hours after Johnson had ordered the first U.S. air attack on oil facilities at the port of Haiphong, North Vietnam.

The Washington Post quoted Johnson as saying to his daughter Luci: "Your daddy may go down in history as having started World War III"

Luci suggested they visit St. Dominic's church in southwest Washington. They were accompanied by Mrs. Johnson and Patrick Nugent, who later in the summer married Luci.

Very Rev. John A. Nowlen, pastor of St. Dominic's, said Saturday that Brother Fabian Butler, a friar in the Dominican Order of Preachers was on duty.

"It was a little after 10 p.m. when Pat Nugent called and said he and Luci wanted to visit the church," Brother Fabian said. "And he didn't say anything about the President coming.

"He looked very worried," Brother Fabian said of Johnson.

"They walked down the center aisle—the Secret Service men waited in the back of the church—and sat down in about the third pew on the left."

The storm raged outside but all was quiet inside except for the echoes in the empty church.

After the four knelt in silent prayer, Brother Fabian came forward and said a prayer for the President.

The Johnsons and Nugents thanked him and left about 11 p.m.

## Thieves Take Instruments At School

Somewhere, a band is being equipped at Vallecito School's expense, alleged Dr. Earl Thomason, principal of the school in Dixie District.

Windows were broken at the school during the weekend and a $40 symbal and a brand new speaker were stolen, said Thomason.

In a theft two weeks ago, a mike and two speakers were stolen from the same school, and Thomason said the burglars, who broke some windows, failed to break into the cabinets.

"If anyone notices a new band ensemble going up somewhere," he suggested, "it might be very helpful to try to trace the origin of the instruments."

## Door Problem Destroys Film

PASADENA (AP)—It was an open door on America's Lunar Orbiter 4 that exposed camera film to sunlight and ruined several frames, scientists say.

They said yesterday thty were having trouble with a thermal door that covers the camera lens on the 600-pound lunar satellite and decided to leave it open to avoid problems.

But it caused more problems, they said, explaining: "It now seems likely that sunlight leaked inside the camera system through the open door and over a long period of time it caused light to strike on some of the film frames.

## $500 Million Crop Setback

SAN FRANCISCO (UPI)—California's unusually cool and rainy spring will result in a $500 million loss to the state's economy, according to the Council of California Growers.

Farmers already have lost $100 million because of the inclement weather, according to the Council, one of the state's major agricultural organizations.

Les Hubbard, the council's executive assistant, said Saturday the loss to the entire economy will probably run to about $500 million because three out of every four jobs in the state revolve around agriculture.

# Tiny Engine Might Solve Copter Trouble

WASHINGTON (SS) — In Vietnam recently, a U.S. Army helicopter pilot lifted off from a tiny jungle clearing, his "chopper" filled with an overload of troops. He succeeded in getting just high enough so that the downdraft from his rotor blades could not push on the ground to provide extra lift. Then trouble hit.

Overburdened by the extra weight, the chopper's engine began struggling painfully, and as the helpless occupants watched, the craft settled into the treetops at the edge of the clearing. Investigators later found that the helicopted was overloaded by only 250 pounds — the weight of a single field-equipped soldier.

Similar incidents have taken place repeatedly in the field, when the pilot could not take time to be sure of the overall weight he was trying to lift or the density of the air. Air density determines how efficiently a helicopter's rotor blades work.

A possible solution may now have been found in the use of a tiny auxiliary engine, perhaps as little as one-twentieth as strong as the main powerplant, which could add hundreds of pounds to the availble payload, or make the difference in an emergency betwen a crish landing and a gentle touchdown.

The insidious thing about accidents such as the one described is that the overload is usually just a small fraction of the total weight the engine is trying to lift, says Archie P. Kelly, senior project engineer of the Garrett Corp.'s AiResearch division in Phoenix. If the fraction were large, the pilot would spot it as soon as he took off, before he was far from the ground.

The answer, Kelly told the American Helicopted Society meeting here last week is called HELPS, which stands for Helicopter Emergency Lift, Power and Starting system. There are many approaches to such a system, he said, but the best seems to be a gas turbine engine mounted at the center of the main rotor.

Tests were recently made using a Bell UH-1B "Huey" helicopter, one of the most common ones in Vietnam.

When the chopper began its artificially forced descent, the HELPS engine, which produced only seven percent as much power as the main powerplant, was able to cut down the helicopter's rate of descent by 18 percent and to reduce its downward momentum by one third.

## Session Reset

The meeting of the Novato Parks and Recreation Advisory Commisssion scheduled for 8 p.m. today has been postponed until 8 p.m. next Monday at the Novato Community House.

# Psychiatric Patient Dies In Spillway Fall

A psychiatric patient sneaked out of Ross General Hospital Saturday and died a short time later in a plunge from the spillway of Alpine Dam.

He was Lawrence H. Tuller, 64, of Carmel, a retired stockbroker.

Deputy County Coroner Keith Craig said Tuller had been out for a drive with his wife, Roberta, and returned to the hospital, where he had been confined a week, at 5 p.m.

Tuller, telling his wife and nurses he was going to the bathroom, returned instead to his car and drove off, using a set of secreted keys.

At the lake, Tuller plunged 50 feet to an abutment, pushed himself off and dropped another 70 feet to the bottom. He was pronounced dead at Marin General Hospital.

Tuller left a note to his wife in the auto, Craig said.

## Borrower Of Car Is Wanted

Salesmen at Dervin Ford, 7401 Redwood Highway, Novato, have about decided that customer didn't really want to buy a car.

On May 7 at 5:30 p.m., they told police, a man identifying himself as Michael O'Brien approached salesman Robert B. Dress of 1025 Second Street, Novato, saying he wanted to buy a car. As it was to late to check his credit that day, he signed a borrowed car agreement, took the car and was to retrun next day to complete the transaction.

He never returned. Police said he has been identified as Vernon Edward O'Brien of Santa Rosa. They want him on a charge of car theft.

## Meeting Reset

## Concert Hall Action Delayed

Conversion of a hanger at Commodore Helicopters property at Waldo Point for use as a concert hall and recreation center as proposed by Don McCoy will take extensive remodeling to meet fire safety regulations, county building inspector Hans J. Berge told the county planning commission today.

"He could put me right out of business," McCoy said of Berge. Berge replied that he was simply following the code.

Commissioners, wanting more information on building requirements as well as parking and lighting, continued McCoy's application until June 5.

## Sale Of Courthouse On Board's Agenda

Several problems that have been circling Marin County government for many weeks are to come to roost tomorrow when the board of supervisors looks at a six-year capital improvement program, sale of the courthouse, waste disposal, telephone rates, the West Marin master plan, landscaping on Corte Madera Creek, and the Marincello mall.

The long day will begin at 9 a.m. at the Civic Center. At 5 p.m. the board, with two city representatives, will convene as the Marin County Transit District board to discuss hiring a transit manager.

County Administrator Alan Bruce will suggest a special meeting to consider the capital improvement program prepared by the county planning department, but the board will have to come to grips with the courthouse sale ground rules. The board last week called for bids June 13. Now it must decide if negotiations with the City of San Rafael before that date will be banned to assure private buyers a clear chance at purchase.

The suggestion by the county public works department for a transfer site for rubbish in Central Marin is to be discussed at 10:30 a.m. After that the board will again consider whether to protest Pacific Telephone and Telegraph Co's. request for rate increases that would add $2 million a year to phone bills in Marin.

At 1:45 p.m., the board will hold a hearing on the West Marin master plan. Next item after that is a planning department proposal for landscaping along the second phase of the Corte Madera Creek flood control project.

At 3 p.m., the board is to take up reconsideration of the Marincello mall, approved under a development plan submitted by Frouge Corp. In approving the Marincello concept, supervisors had said that no development plan would be approved until Marincello is annexed to Marin Municipal Water District. The annexation has not yet occured.

## New Appeal By Painter

Golden Gate Bridge employee Paul Powell, 50, of 53 Bayview Terrace, Mill Valley, who was refused a chance to appeal his dismissal, says he has no other place to go except to the Golden Gate Bridge board of directors.

Powell, a Caucasian, was shop steward with the bridge district and had been working for the district for six years and five months when fired on April 28 for alleged "incompetence."

Two bridge painters who were fired with Powell are both Negroes, James B. Haugabook, 30, of Palo Alto and Jimmie L. Wilkins, 33, of Oakland, plan to appeal their dismissal to the Fair Employment Practices Commission on a charge that they were fired because of their race.

Powell maintains he, too, is being discriminated against, but since no racial discrimination exists, the FEPC will not consider his case.

Powell says discrimination against him came about in this way:

On Jan. 16, he was subpoenaed to testify before the Industrial Accident Commission on an injury which occurred in 1965, when a bridge worker fell and injured his head.

"I testified to the truth, which threw a bad light on the safety precautions and equipment used on the bridge at that time," said Powell. "Safety belts and better planks were needed for employees to work on. From then on, I could feel the thumb pressing down on me."

Powell is vice president of Painters' Local No. 4 of San Francisco. When his appeal for reconsideration was turned down by the bridge directors Friday noon, Powell said he was left with no other recourse.

Attorney Francis McTernan, representing the painters union, said the case of the Negro painters will be appealed.

BEST-SELLER WANT-ADS

# At last, a sports car for grown-ups— the Mercedes-Benz 230SL

**At $6262,* the Mercedes-Benz 230SL ranks among the world's great sports cars. Motor magazine describes road-holding as "uncanny." Yet the 230SL doesn't thunder, rattle, ride like an ox-cart or look like a rocket ship. It's a civilized two-seater built for normal adults, not acrobats. Read how the 230SL delivers all the pleasures of sports car driving—and none of the privations.**

MANY driving enthusiasts feel the urge to own a sports car—but don't like to suffer their usual hardships and handicaps. A solution is at hand: the Mercedes-Benz 230SL. "In place of colossal maximum speed and breathtaking acceleration, the magic of this car lies instead in its refinement, comfort and superb road behavior," reports *Autocar*.

You can have your cake and eat it, too. The 230SL is supremely livable. And it runs rings around much of its sports car competition.

### "There must be a limit, but on a dry road we never found it"

*—Motor road test*

The 230SL vaults from zero to 60 mph in 10 seconds. It reaches its peak only at 125 mph. But its most startling trait is its leech-like roadability.

Even a quick inspection shows why. The car stands a mere yard and a half high. Yet it straddles the road with a track five feet wide. Tires seem to bulge out from the body sides. Note: These aren't ordinary tires, but *radial-ply* design, specifically tailored to the car's speed, weight and handling traits.

All four wheels are linked to a fully independent suspension system, first proved on a world-championship Mercedes-Benz racing machine. This skillful engineering has eliminated any trace of a harsh "sports car ride"—as *Autocar* discovered: "When being really hurtled along, the 230SL sits down on the road beautifully, sweeping over bumps and undulations with the minimum of vertical movement and no sensation at all of wheels pattering up and down." No bone-jarring jolts; this is a *civilized* sports car—and with a wheelbase of less than 8 feet, an agile one. The 230SL nips and darts through dense city traffic like a whippet in a herd of buffalo.

### No frazzled nerves

On the open road, the 230SL replaces the raucous bellow of most sports cars with a soothing hum. You can actually converse with your passenger in normal tones.

The major reason: a 6-cylinder, single overhead camshaft engine, with fuel injection replacing carburetors and hours of patient handwork to ensure running smoothness.

For example, pistons are machined to tolerances of .019 of a millimeter. Every engine is bench-tested for over an hour.

### Superb stopping power

However vigorously you drive it, the 230SL cannot outrun its magnificent brakes.

*Mercedes-Benz 230SL Roadster cockpit is designed for normal adults, not acrobats. Comfort is so complete that driver and passenger have separate heater and ventilation controls.*

Up front are 9.9-inch disc brakes. Finned, 9.05-inch turbo-cooled drums act on the rear wheels. A gentle power assist transmits pedal pressure to these brakes—softly enough to avoid sudden lurching stops, strongly enough to deliver instant response.

**A reassuring fact:** *Road & Track* magazine has been testing all kinds of cars for almost 20 years. The 230SL holds the record for fast stopping times.

### Strong and silent type

Many sports cars are intended as playthings—and built accordingly. The 230SL is meant to endure for years without showing its age.

Heavy gauge steel body panels are welded into a single, solid structure that can't rattle because it uses no nuts and bolts. After hand filing and buffing, this body is submerged in a 52-ton primer vat where every crevice gets a protective coating. After the primer coat is baked on, 24 pounds of permanent undercoating seals the underside. Engine, drive train and suspension are rubber cushioned to quell vibration. No wonder the car pounds over brutal surfaces without tremors, rattles or jolts.

In fact, the 230SL thrives on rough going. Competition driver Eugen Boehringer underscored the point. He slammed his 230SL over some of Europe's worst back roads in the Liége-Sofia-Liége Rally and he won.

### Bring your wife

Take your wife on a test drive in the 230SL. She'll be hard put to find drawbacks.

For example, your passenger enjoys *more* forward legroom than in a Rolls-Royce. Seats are firmly upholstered, contoured chairs—not skimpy "buckets." You are sealed against wind gusts and cold with roll-up side windows and one of the tightest-fitting convertible tops ever devised.

Dual heater and ventilation controls let you select whatever interior climate you want, while your passenger does the same.

The 230SL even quashes that ancient complaint about sports car trunk space. A carpeted alcove behind the seats holds large parcels or small children. The trunk carries 12 cubic feet of luggage.

**Note:** Power steering and a 4-speed, automatic transmission are two of the few extra-cost options offered for the 230SL. If you spend much time in city traffic, they considerably ease the burdens of driving.

*Autocar* comments on their effectiveness: "We have never tried a more successful power steering, and the automatic transmission is also among the best in our experience."

### Three cars in one

You can choose from three 230SL models: the soft-top Roadster, at $6262*; the hardtop Coupe, at $6420*; and the Roadster/Coupe, which gives you both tops, at $6665*.

"The detachable hardtop is so beautifully engineered that it doesn't look as though it should come off at all," comments *Motor*.

**Other Mercedes-Benz motor cars: from $25,785* to $4,189***

### A word on safety

Mercedes-Benz has received widespread publicity about its safety engineering achievements over the past several years.

Work continues to make Mercedes-Benz cars even safer, both in avoiding trouble, and in protecting you if trouble should occur.

For sane drivers, Mercedes-Benz cars can help reduce the hazards of driving—without dulling its pleasures.

But however well engineered it may be, no car can entirely defend against the show-off, the drunkard, or the neurotic bent on self-destruction. Safety depends on you, too.

### Drive it today

The only way to fully appreciate this remarkable machine is to *drive* it. Come in soon for a thorough test run in the 230SL—the sports car for grown-ups.

*Optional steel hardtop turns the 230SL into a snug, closed car.*

NEW CITIZEN—Ross Laase of San Rafael, one of 34 Marinites naturalized last month, has lived most of his life in Marin and remembers little of "the old country." (Independent-Journal photo)

NEW CITIZENS

## Ross Laase Knows About Only U.S.

A 14-year-old San Rafael boy, who has lived too long in this county to remember his native land, was among 34 Marin residents who became citizens in April at naturalization ceremonies in San Francisco.

Ross S. M. Laase, adopted nine years ago in Germany by the Hans K. Laases of 307 Devon Drive, said yesterday that he is too happy in Marin to want to remember.

The years of growing up here made Ross and American boy long before naturalization. His stepfather, who is personnel manager of the Pacific Union Club in San Francisco, decided, however, that citizenship should wait till Ross "knew what it was about and could appreciate it better."

Ross is a sixth grader at Nova Albion School, likes woodworking and playing the trumpet. His favorite sport is football. His sister, Carole, is a senior at Terra Linda High School, and his brother, Robert, a junior at Santa Clara University.

Other Marinites naturalized were:

## Bolinas Report Delay Proposed

Joint discussion at a public hearing of the Stinson Beach County Water District and the Bolinas Beach Public Utility District of the "Interim Report on the Bolinas Watershed," may be delayed.

The Bolinas board, meeting Friday night, decided to ask for a delay in order to gather more information, director Willard Barr reported.

The Stinson Beach board, meeting Saturday morning, and not having yet received the request for delay, agreed to set the hearing for May 27.

In other action, the Stinson Beach directors accepted resignation of director John Walker who has moved from the area and agreed to consider applications for his replacement June 10.

## Jet Streams Cause Drought In Florida

WASHINGTON (AP)—You can blame those meandering jet streams for the unusual spring weather we've been having, Weather Bureau experts said today.

Drought in the semitropical Florida Everglades, spring snows in the Rockies, chills in the north central states and heavy rains in the Northeast all are related to those high-level winds which frequently give airplanes a push across the continent.

The Weather Bureau takes a philosophical view of it all.

"The weather is always abnormal somewhere," one expert said. "Normal weather is sometimes a hard thing to come by."

Basically what is happening, the bureau said, is that a northern jet stream is going farther north than usual and bringing cold air into the continental United States from Alaksa and Canada.

From Alaska this stream moves into the Great Lakes region and the East.

A Southern stream is slightly farther north than usual and is stronger than normal. It is bringing storm systems in from the Pacific Ocean to the central part of the nation.

Between these two giant rivers of air is what weather observers call a confluence zone—and it's here that snow and rain are falling from west to east.

The tendency is for the opposing systems to spread moisture toward the north with a dry area to the south, thus accounting for the Everglades drought, the bureau said.

### Gardening Talk

Robert Tanem of the Santa Venetia Nursery will speak on general gardening and plant care at a meeting of the Marinwood Garden Club Wednesday at 8 p.m. at Marinwood Community Center.

## Tariff Talks Running Past Deadline; Progress Noted

GENEVA (AP) — The Kennedy Round negotiators passed their self-imposed deadline but kept working today after making more progress toward lowering tariff barriers affecting an estimated $100 billion a year in international trade.

Some officials thought it would take another night session—the fourth in a row—to clean up the details.

Negotiators for 53 nations agreed on a new world minimum price for wheat, about 25 cents a bushel above the price of the last five years, subject to general agreement on other issues.

At Gulf of Mexico ports, the new price would be $1.73 for hard red winter wheat. Experts foresaw market prices increasing possibly as much as 20 cents a busiel over the next three years.

Creation of an international grain aid program also was likely. It would take some of the burden from the United States, which in recent years has been giving away 10 to 13 million tons a year of its dwindling wheat reserves.

It was undecided whether the program would reach 4.5 million tons a year and whether the U.S. contribution would be 42 or 46 per cent. Japan has been asked for a 5 per cent contribution but has been unwilling to join the plan at all. The European Common Market would contribute 22 or 23 per cent, depending on Japan.

Still holding up agreement on an entire package of tariff cuts were issues involving U.S.-European chemical trade, British-European steel trade and Norwegian-European aluminum marketing.

### Choir Serenade

The San Rafael High School a capella choir will present its "Spring Serenade" at 8 p.m. May 24 at the school auditorium. Byron Jones will conduct.

IT'S A "BIG"

HERE'S SOME ADVICE ON LARGE SIZES FROM OUR HOME ECONOMIST:

BUY THE LARGE SIZE? WHO, ME??? Many families CAN use a large size conveniently. Most of this week's prices for large packages are below the usual sale prices for a smaller size of the same thing.

- Staples keep fresh longer if you EXCLUDE AS MUCH AIR AS POSSIBLE . . . KEEP THEM COLD AS POSSIBLE . . . STORE THEM IN METAL OR GLASS with a TIGHT lid.
- It's a good policy to use FLOUR, CORNMEAL and RICE withing 6 MONTHS, dry SKIM MILK within 3 MONTHS and OIL or PEANUT BUTTER within 1-2 MONTHS.
- It's also a good idea to store bulk items in an out-of-the-way place and transfer a week's supply to a canister or jar.

## 2,000 Attend Annual Event

More than 2,000 persons attended the Portuguese Community's annual Holy Ghost Festival yesterday in Sausalito in the first festival in several years held in clear weather.

Celebrated in Sausalito since the 1880's, the festival recalls relief of a famine suffered by Portugal in 1292.

Following mass at Star of the Sea Church and a procession through downtown, the crowd returned to the IDESST Hall for the traditional soupas, carne and dancing.

## Trustees To View Bond Voting Date

Date for a bond election to help finance Sausalito School District's proposed "education park" will be considered by trustees today at 8 p.m. in the district office, Wateree and Nevada streets.

District architects have estimated the new plant on Bayside School site will cost at least $3.4 million. The finance committee has recommended a fall election to bond the district up to its limit of $1.4 million. It now has no bonded indebtedness.

Richardson Bay and Central School sites would be sold to help finance the "education park."

Also on the agenda is consideration of a date to hold a tax election. Increase of the district's operational tax rate from 90 cents to $2.25 was approved for a three-year period by voters in the spring of 1965. If not renewed, the limit would drop back to 90 cents next year.

A closed session will be held at the end of the regular meeting to consider hiring of personnel, reported Supt. Phillip W. Schneider.

The U.S. Department of Agriculture reports a million farm acres are lost yearly to non-farm use.

## Body May Be Span Victim

A body washed up on Baker's Beach at the Presidio of San Francisco Friday is believed to be that of a young woman who leaped from the Golden Gate Bridge Thursday only two minutes after refusing a ride with a bridge lieutenant.

The body, found on the beach by Sp4 Robert Allen, a Presidio soldier, was identified as that of Lucinda Cheney, 18-year-old San Francisco clerical worker, daughter of Easton Cheney of Oakland.

It matched the description of a girl who on Thursday was offered a ride to the north end of the bridge as she was walking along its pedestrian sidewalk only minutes before the 6 p.m. closing for pedestrian traffic. Two minutes later, she was seen to jump from the bridge.

## New Fire Ban At Two Beaches

A new ban on all fires on Bolinas and gate beaches will be enforced now that signs advising of the ban have been posted, warned Bolinas Fire Chief Jose A. Silva.

The beaches are patrolled by fire officers and sheriff's deputies, he said. Penalty for violation of the ban is up to six months in jail and $500 fine.

## IT WAS A LAMB IN SCHOOL . . .

Woolie, an unwanted runt lamb that was due to die, went to San Rafael's Sun Valley School last Thursday and stayed all night. On Friday he got hugged, stretched and a promise of life. The story: Lawrence Walters of 70 Windsor Avenue heard a rancher was going to kill Woolie. Artist Walters took the lamb to Shirley Jacobsen's second grade class, where he is a teacher's aid. Then Walters found Woolie a home with some ducks, goats and deer at Franchini's Chateau. Four of the pupils who hugged 7-week-old Woolie were John Martin (left), Donna Martin, Ricky Larson, and Tommy Porterfield.

## Wreck Causes Power Failure

A car, swerving off Sir Francis Drake Boulevard near Inverness at dusk last night, hit a power pole and cut electricity to Inverness Park and the town of Inverness for 30 minutes.

About 200 customers were affected by the accident which occurred at 7:05 p.m. Residents were without light or power from 7:53 p.m. — when the swaying lines had to be cut — until 8.20 p.m., said Leonard Robertson of Pacific Gas and Electric Co.

Twenty-five customers living closest to the pole were without electricity until the pole could be replaced by 6:10 a.m. today, he said.

Driver of the car, Ricardo Griffin, 42, of San Francisco was uninjured in the crash, according to the California Highway Patrol.

## Sausalito Driver Hurt In Accident

Carmen J. Morano, 27, of 602 Humboldt Street, Sausalito, suffered head cuts and bruises yesterday at 2 a.m. when his car collided with one driven by Robert F. Obrey, 38, of San Francisco.

The collision happened when Morano pulled out of the city parking lot on Humboldt, running into Obrey's car, police said. Marano was cited for speeding.

Police said the burglar sawed through a chain on the door between 8:30 a.m. Thursday and 10:30 a.m. Friday.

## Two Teens Are Missing

## Now Possible To Shrink Hemorrhoids Without Surgery

...Except In Unusually Severe Or Persistent Cases

New York, N.Y. (Special): A scientific research institute has discovered a substance which has the ability to actually shrink hemorrhoids without surgery except in unusually severe or persistent cases.

In most cases the sufferer first notices relief from the itching, burning and pain. Then this substance starts right in to gently reduce the swelling.

Tests conducted on hundreds of patients by leading doctors in New York City, in Washington, D.C. and at a Midwest Medical Center proved this so. And it was all accomplished without surgery, injections, narcotics or astringents of any kind.

The secret is *Preparation H®* —the *only* formula for the treatment of hemorrhoids that contains *Bio-Dyne®*. In addition to actually shrinking piles — Preparation H lubricates, makes bowel movements more comfortable, and soothes irritated tissues. It also helps prevent further infection.

Preparation H comes in ointment or suppository form. No prescription is needed.

One PSA flight is worth 1000 words

If all the nice words people say about PSA were laid end to end, they might even reach from the San Francisco Bay Area to Los Angeles/San Diego. By coincidence, that's where we fly. 600 flights a week. Another good word: lowest air fares. L.A. or Hollywood/Burbank Electra Jets $11.43, 727 Fan Jets $13.50. San Diego $17.78 and $19.85. If one PSA flight is worth a thousand words, your $11.43 ticket costs only about a penny an adjective. San Francisco 761-0818 • Oakland 835-2555 San Jose 286-4720 or your travel agent.

Will you pay the price of a Cadillac...and not get one?

Literally thousands of people are driving cars that cost as much as a Cadillac—yet provide far less in motoring satisfaction, distinction and lasting value. A few minutes with an authorized Cadillac dealer and a few miles at the wheel of a Cadillac can prevent you from making this unnecessary compromise. And it is generally acknowledged that a Cadillac holds its value so well that it actually costs less to own than many lower priced cars. Right now, your authorized dealer has a fine selection of models and colors—with all the advanced engineering, superb performance and many safety features that make a Cadillac a Cadillac. # Marin Will Honor A Senior Citizen

Marin will honor its senior citizens — and name one of them as outstanding senior citizen of the year— at a luncheon at Hamilton Air Force Base on May 25, sponsored by the Marin Senior Coordinating Council.

Cities and organizations have nominated 18 of the county's older residents for the honor. Each has a record that is an honor in itself.

The Independent-Journal will present biographies and photos of the candidates prior to the award luncheon at which the winner will be announced. Here are the first two:

**MRS. SHEPPARD**

Mrs. Genevieve Sheppard, a registered nurse who has offered her professional services voluntarily since her retirement, is the outstanding senior citizen nominee of the Marin County Chapter, American Red Cross.

Mrs. Sheppard, 67, of 9 Washington Avenue, Santa Venetia, retired in 1962 after 16 years as a surgical nurse and 17 years as a school nurse for the Marin County schools office.

Mrs. Sheppard has been a volunteer instructor in the Red Cross home nursing courses since 1959 and has trained more than 100 Red Cross teen-age volunteers who serve in nursing homes.

She also has provided the "professional ethics" section of the Red Cross Volunteer Visitor training since the start of the program in June, 1965. Then she took training as a volunteer visitor to the aging herself.

**VISITS AGED**

Mrs. Sheppard has been visiting weekly more than two aged persons in convalescent homes and frequently has filled in for other volunteers when they have taken vacations.

A graduate of St. Joseph's Hospital School of Nursing, Tacoma, Wash., she has been a resident of Marin since 1939. While with the schools office, she worked in rural areas and in special education. At that time she said that working with children was her greatest joy.

**VICTOR HECHT**

Victor E. Hecht, former planning commissioner and executive secretary of the Sausalito Chamber of Commerce, is the Sausalito Parks and Recreation Commission's candidate.

Hecht, 77, of 32 Vista Clara Road, retired as vice president of Zellerbach Paper Co., San Francisco, in 1954.

He served on the Sausalito Planning Commission for seven years before he retired as chairman in 1960. He was a member of the board of the Sausalito Chamber of Commerce for two years and served as executive secretary for three and one-half years before he resigned in September, 1964.

Hecht has been a strong supporter of Cub Scouts and has served as chairman of the Community Chest for two years. He has been a member of the Sausalito Rotary Club for 14 years and was club president in 1954.

**STREET MARKERS**

Hecht has sponsored an intercom system for city hall and street markers to the city. In gratitude the city named a street in his honor.

A 16-year resident of Sausalito, Hecht also has served as a director of the Marin County Child Guidance Center, a director of the Marin County Council of the Boy Scouts, and a director of the Marin County United Crusade.

## Soviet Missile Parts To U.S. For Study

SAIGON (AP) — The battered parts of a possible Soviet-made guided missile that fell in South Vietnam have been sent to the United States for technical study, the U.S. Command said Saturday.

The seven-foot-long tubular device, with Russian markings, is believed to be part of the guidance system of a Soviet-built surface to air missile that brought down a U.S. Skyhawk jet near the 17th Parallel last Wednesday.

# Montessori School Request Withdrawn

An application for a use permit for a Marin Montessori School at 1428 Mission Avenue, San Rafael—which was to have been the subject of a hearing before the San Rafael City Council today — has been withdrawn, it was announced Saturday.

The council will meet at 8 p.m. in the city hall.

Withdrawal of the application leaves in effect a use permit for the old Coleman School granted the Montessori School by the planning commission earlier.

Commissioners approved the Mission Street site, too, but it was appealed by the traffic committee. A public hearing into that appeal started May 1 and was to have continued today.

Also on the agenda is consideration of a city hotel-motel tax. At last meeting, Councilman Harry A. Barbier said he considered the city should have one before the state steps in.

The council will hear opinions of any property owners who want to discuss the city's role in establishing a connecting road between Irwin Street and Second Street.

Members will discuss an application for a family billiard center at 511 Francisco Boulevard from Weldon Simmons, and an agreement between the city and Dixie School District for a multi-use field at the Nova Albion School.

Howard V. Dawson is president of the Kiwanis Club of Southern Marin.

## Three-R School Graduation Set

Graduation of the Three-R School will be at Peacock Gap Country Club, June 9 at 11 a.m., according to Principal Joseph Heath.

Eighth and twelfth graders will receive diplomas in the same ceremony, followed by a luncheon.

Benjamin Simpson of Corte Madera will be valedictorian and Noreen Napoletano of Novato will be salutatorian. Anthony Gilmore of Ross will represent the 29 eighth-graders.

Rev. HarryCarlin of San Francisco will give the benediction and Virgil S. Hollis, county superintendent of schools, will address the graduates.

Graduating seniors are: Barry Carlin, Santa Rosa; William Kressman, Berkeley; Noreen Napoletano, Novato; Benjamin Simpson, Corte Madera; Jean Stormont, and John Zane, Sonoma.

## Citrus Glut Drops Di Giorgio Earning

SAN FRANCISCO (UPI) — Net earnings of Di Giorgio Corp. during the first quarter this year were $160,000, it was announced Friday, $368,000 below the same period of 1966.

Earnings equaled 10 cents a share—20 cents a share below first quarter earnings of last year.

"A sharp decline in the Florida citrus market due to over-production was a primary cause for reduced earnings during the first quarter of 1965," according to Robert Di Giorgio, president of the corporation.

## Spring Concert Set At Junior College

The spring concert of the College of Marin Community Band will be held at 8:30 p.m. Saturday at the college gymnasium. Admission is free.

John H. Myers will conduct the band in works by Gershwin, Ives, Sousa, Meyerbeer and other composers.

Isn't it about time bankers get off their high horse and start treating their customers like people.

You know how bankers are. They take your money like they're doing you a favor. They cash your checks like nobody else in the world would trust you for 20 bucks. And when they give you a loan it's like they're parting with their last dollar, and for it, they want their pound of flesh. That's nonsense. Now Redwood National is going to prove it is. When we take your money we're going to do something for it. We'll cash your checks like you're a long, lost friend. We'll lend you money like your account depended on it. (Maybe it does!) We'll even remember your name, but we'll never forget you out in the lobby. What's more, for a $200 balance we'll give you a free checking account. For $100 or more in one of our growth bonds we'll guarantee you 5% for the next 10 years. So figure it out. You don't have to take that high horse stuff anymore. Not as long as Redwood National's around.

# HELEN HELP US!

By HELEN BOTTEL

## Baby Sitter Announces Prices Have Jumped, Strike My Be Imminent

DEAR HELEN:

Our baby sitter announced her prices have jumped to 75 cents an hour, $1 after midnight, and 25 cents extra per hour for each kid over her limit of three to a job. She said the sitters have organized. If they don't get what they ask, they'll go on strike.

Ye gods! Teens striking for higher pay yet? So now it's six flat-ones or more every time I take out my wife in the manner you columnists keep harping is necessary to keep her happy.

This added to $20 or $30 for dinner — and, means we eat plenty light at home in between. It's sure true, the after-dinner mint you need these days is located at Denver!

Now I'm not for slave labor, but I think 50 cents an hour is enough for a sitter, when you figure it's all gravy after 9 p.m. and the kids are in bed, or should be. Well maybe not gravy, but whatever is loose in the refrigerator. What do others think? — SHARIN' OF THE GREEN AGAINST MY WILL

DEAR SOTGAMW:

I think $3 for a steak dinner is enough too, but my opinion isn't shared by many restauranteurs these days. Actually sitter-fees have only doubled in the last 30 years, whereas wages and the cost of living have more than tripled. Don't blame the kids for wanting their fair share of inflation.

. . . But your wife might get together with a neighbor and trade "sitting time" — or organize a mother's club which can arrange a baby sitters exchange. — H.

DEAR HELEN:

I have a wife that is a real woman in every way, but she doesn't know it and won't believe it. She is scared silly thinking I'll fall for some of these chicks that come along. I'm 53, she's 46. We've been married two years. We were both married before, but this is real.

She dreams at night I eloped with a girl half my age, and wakes up to worry me about it. I never returned a come-on by any woman since my marriage but I must admit things happen to me.

The other day I was at the coin laundry, reading and waiting. A little doll from the beauty parlor next door supposedly tripped over my feet and fell into my lap. She said, "Pardon me," but somehow she managed to pat my cheek and pinch my arm. There, staring with those big, blue, sad eyes was my wife.

A few weeks ago were at church, mind you. A pretty lady came and said, "Sir, your tie isn't straight," so she straightened it and kissed me on the cheek. Again, those big, blue, sad eyes . . .

Helen, why me? — L.M.

DEAR L:

. . . Because you appreciate women and they sense it, that's why. Gals beam in on men like you, and there's nothing you can do about it except let 'em know you aren't that friendly. — H.

P.S. I might have answered you with a quip had I not received a letter from your wife in the same mail. She says:

DEAR HELEN:

I saw my husband's letter, so I thought I'd write one also. He is the best thing that ever happened to me and it seems too good to be true that I have a kind, generous, very handsome and young-looking husband (after many martial troubles in my earlier life). He's filled with love to give me and is completely true, but I'm jealous. How could he have chosen me when he seems to be what all women want — without even trying? — L.M.'S WIFE.

DEAR WIFE:

He chose you because you're a "real woman," and you'd better believe it before your jealousy drives him to a lesser one.

When others make a play — smile, sympathize and appreciate him! — H.

# Carpenter Apprentice Competition Slated

Starting with a blueprint, materials and hand tools, a group of young craftsmen will compete for the title of "Outstanding Carpenter Apprentice" in the Bay Area at the Northgate Shopping Center on Saturday, starting at 9 a.m.

Marin apprentices in the competition will be David K. Ritter, trained by M. A. Gearety Construction, Novato, and Robert Ruzick, employed by Robert L. Jack, Novato contractor. Both are members of Carpenters Local Union 35, San Rafael.

Selected on the basis of written examination, the apprentices will construct an individual project in eight hours of manipulative competition. They have had four years of on-the-job training and evening classes.

Competition will be in an open area northeast of the Emporium building.

There will be a nail driving contest for elementary, junior and senior high school students sponsored by the Northgate Merchants Association.

There will be an information booth and displays designed to give career information to students. Representatives of industry, labor and government will be on hand to answer questions on carpentry apprenticeship and other trades.

The contest will be conducted by the Marin County Carpenters Apprenticeship Committee, which represents the Contractors Associations and the Carpenters Union in supervision of the apprenticeship program.

# Teacher Pay On Agenda

The Tamalpais High School District board will continue consideration of teachers' salaries at 8 p.m. today in the district office.

Two claims have been filed against the district. George Lambert has submitted a claim for $500,381.45 in damages for injuries his son, Jeffrey Lambert, suffered when he was attacked by another student Jan. 18 at Sir Francis Drake High School. Davis S. Adams of 1355 Sir Francis Drake Boulevard, San Anselmo, has submitted a claim for $10,000 damages from flooding of his property, adjacent to Drake High School, Jan. 21.

The board may award a contract for improvements in outdoor areas at Redwood High School. Nine bids were taken April 27. Low bidder W. K. McClellan of San Rafael bid $37,995, but did not submit a list of subcontractors. The next lowest bidder was James T. Thornton of San Rafael, at $38,170. High bidder was A. and J. Shooter of San Rafael at $44,732.

The board may authorize a call for bids for portable classrooms for Drake High School, and will consider a $300 contribution to the Pegasus poetry program sponsored by San Francisco State College.

# Fifth Hearing On Zone Policy

The San Anselmo Planning Commission will have a fifth hearing on an amendment to the zoning ordinance on height, bulk and space requirements in residential zones at 8 p.m. today at city hall.

The commission will also have a public hearing on San Francisco Theological Seminary's request for rezoning as neighboring apartments of single-family residential property at 108 Ross Avenue and duplex property at 99 Woodland Avenue.

David A. Dunn seeks a permit to operate a "Der Wienerschnitzel" take-out food restaurant at 111 Red Hill Avenue, and Guasco Market, 100 Center Boulevard, wants to display merchandise outdoors.

## Guard At Quentin Stabbed In Back

A San Quentin Prison guard was stabbed twice in the back today during a melee at the prison.

Correctional Officer Wayne F. Kinsel of 327 D Street, San Rafael, suffered only superficial wounds and was able to return to duty after bandagnig at the prison hospital, reported Associate Warden James W. L. Park.

Kinsel saw two prisoners, Arthur Anderson, 27, and Donald Miller, 25, in an altercation, Park reported. He ran to separate them.

Several other prisoners leaped in to join the melee. Other guards responded to clear the brawl.

Miller, reported Warden Park, was slashed in the shoulder.

Anderson was held as the suspected knife fielder. Miller was placed in the prison hospital for treatment.

The weapon was a prison-made knife consisting of a flat, sharpened piece of steel with a taped handle, Park reported.

Both Anderson and Miller are longtime trouble makers at the prison, Park said. Anderson is serving five years to life for second degree murder; Miller, one year to life for second degree robbery.

## Earthquake Study Requested Again

The Marin County Planning Commission today again asked the board of supervisors to do something to guard against earthquake damage—again by split vote with commissioners Niels Schultz Jr. and Eugene R. Trombley dissenting.

Supervisors several weeks ago turned down a request by the commission for appointment of a committee of experts to study the danger of the San Andreas Fault zone in West Marin.

Today the county planning staff showed the commission a recently compiled map by the U.S. Geodetic Survey showing faults between Bolinas Lagoon and the south eand of Tomales Bay and describing movements in this area in the 1906 earthquake.

Schultz charged that the earthquake issue was being used to "sterilize land" by restricting development. He also said there was noting new in the USGS map and that the county should not spend money studying earthquakes.

Commissioner Michael Praszker countered that the commission had restricted development "for other reasons less cogent than earthquake danger." He said he though preservation of life and avoiding property damage was more important than real estate values, suggesting that any commissioner believing land value was the prime concern should not vote on the issue.

On motion of Commissioner Hugh Dougherty, the commission asked supervisors for further investigation of earthquake and slide danger to see whether land use and building regulations should be changed to take the danger into account.

The map, showing one main fault line with a parallel line north and south of Five Brooks and several branch faults, will be forwarded to supervisors.

COW COMES TO SCHOOL IN MILL VALLEY

Sometimes public school classes make trips to see cows. But this week, the reverse finds a "mobile dairy unit" of the Dairy Council of California visiting Mill Valley schools. Star of the unit is Daisy, the cow. Kindergarten children at Park School thought she was just wonderful today. (Independent-Journal photo)

## Four Rescued As Sailboat Turns Over

Four San Rafael residents, including two 8-year-old children, were rescued without injury Friday evening after their 17-foot sailboat capsized at the mouth of the San Rafael Canal.

Boat operator John J. Gereghty said he had just started to hoist the mainsail at about 7 p.m. when a strong gust of wind capsized the boat, tearing off a cleat, breaking the aluminum mast, and dumping all four occupants in the water.

Gereghty's niece, Merrilann Hayes, was picked up by a passing schooner, and Gereghty, William Blackburn and his son Robbie Blackburn were picked up by a small power boat. All four are residents of apartments at 269 Canal Street.

The Coast Guard, which sent a cutter and a helicopter to the scene, righted the sailboat and towed it to San Rafael Yacht Harbor.

## Pole Wrecks; No Failures

Cars hit power poles in two separate accidents three hours apart yesterday in San Anselmo, but neither accident caused a power failure.

Charles H. McClellan, 16, of 1 Greenwood Court, Tiburon, suffered a cut lip when his car hit a power pole on Sir Francis Drake Boulevard just east of Saunders Avenue at 1:20 a.m. McClellan told police he would see a private physician.

Craig J. Cunningham, 17, of 33 Grove Hill Avenue, San Anselmo, was not injured when his car hit a power pole at 580 Red Hill Avenue at 4:20 a.m. He told police he fell asleep at the wheel.

## Major Comes Home, Tells Of His Duty

By JOHN F. KEARNEY

On the day Maj. F. Peterson left for his home in Santa Venetia after 12 months duty in Vietnam, Victor Charlie gave him a rousing sendoff.

The Viet Cong mortared the airfield Friday, killing eight persons and ripping the runway so much, Peterson had to leave from another airstrip.

The following day—Saturday—his home at 1008 Adrian Way was attacked by vandals who tore down a "Welcome Home" sign put there by his wife, Mary.

**JOB TO BE DONE**

Vandals or Viet Cong, it makes no difference to 39-year-old Peterson. The war in Vietnam may be many things to many people but to him, it is a job which has to be done. He is a professional soldier, first and last.

Rising resentment at President Johnson's handling of the war and the resulting counter-wave of support are not his concern, he says. They are political and he is military.

About his job during the past 12 months, he will say no more than that he was an adviser to a Vietnamese regular airborne ranger detachment. They fought in the central highlands.

The South Vietnamese, he said, were good fighters — the ones he worked with—but they were imbued less with the sense of urgency than were the American troops.

**CHANGES BERETS**

"The Americans want to get it over with so they can get home," said Peterson. "The Vietnamese are already home and has little effect on them whether it ends this year or next year."

During the time he was in Vietnam, he changed the color of his berets. He went there as a Green Beret and became an adviser to the Vietnamese detachment, the members of which traditionally wore a red beret.

On Saturday, surrounded by his wife and family, Rosemary, 6, George 8, Michael 15, and Howard 16, Peterson talked about what his role had been.

"We are military and we have our job," he said. "How other people see it or what they decide to do about it makes no difference and doesn't effect us."

He described morale among the fighting men was good. Stories of peace marches and draft dodgers were more the center of jokes than serious discussion, he said.

"The men would very much like to have some of these people with them in their particular unit," said Peterson.

**LOSES 27 POUNDS**

In all his 14 years with the Army, Peterson found the last year one of the most eventful. He faced danger a hundred times, was promoted to major, and lost 27 pounds.

"You can say I'm certainly glad to be back," he said. "Nobody likes war, least of all this kind of war where there is no fighting line and no clear cut division line."

Vietnam had changed, even in 12 months. American troops had increased in numbers and Saigon, once a pleasant city with a French atmosphere, had been turned into a tight military-type fort, he said.

"Paris-like sidewalk cafes have been replaced by wire grills to prevent people tossing in hand granades," said the major. How do the Vietnamese react to this change? "They don't like it, naturally," said Peterson, "but they realize this is a small price to pay for the war."

The major and his family will soon leave for West Germany, Peterson's next assignment. He said Saturday he intended to make the next 30 days a leave to remember—despite the bad start created by the welcome-ripping vandals.

Mrs. Peterson said she believed it was the work of teen-age hooligans.

"Many people have been very friendly and helpful to me during the past 12 months," she said. "I don't believe any thoughtful person could have ripped the sign down."

## Salaries On Hub Agenda

The San Anselmo School District board will continue consideration of salaries for district employees tomorrow at 7:30 p.m. at Red Hill Intermediate School.

The council will consider whether the sides of a footbridge at Brookside School should be raised to make the bridge more safe. A policy change to give teachers credit for teaching in private schools without teaching credentials will be considered.

The board may approve a $407 contribution to a county-wide project of education in narcotics.

## Two Deputies Subdue Patron Of Night Club

Robert Alan Gerard, 25, of 7 Excelsior Lane, Sausalito, was charged with battery Saturday after a fight with two sheriff's deputies at the Ark at Waldo Point, Sausalito.

The deputies were checking the complaint that members of the Gypsy Joker motorcycle gang had entered the night club without paying.

Gerard cursed at Deputy Ken Froberg and then resisted arrest, according to Froberg's report, knocking the deputy's helmet off and then seizing him in a bear hug which Froberg could not break. Reserve Deputy James Riddell jumped into the struggle and the three crashed to the ground.

At this point, Forberg reported, Gerard said, "I'm sorry, I'm sorry," but started swinging again when he was released.

Gerard posted $550 bail, to appear in Marin Municipal Court at 1:30 p.m. tomorrow.

## Ankle Breaks In Accident

Airman 3c David Gary Roberts, 19, of Hamilton Air Force Base suffered a fracture of the left ankle when he was thrown from his motorcycle against a parked car on North San Pedro Road, west of Washington Avenue, Santa Venetial, yesterday at 1:40 p.m.

The eastbound motorcycle hit the rear of a car driven by Raymond Anthony Ziebell, 17, of 110 Meriam Drive, Santa Venetia, as traffic slowed ahead, according to California Highway Patrol. Roberts was thrown against the door of a parked car belonging to Roger Chanteloube, 25 Via Hermosa, Greenbrae.

He was treated at the base hospital and returned to duty today.

## Mother's Day Crowd Is Large

Mother's Day produced an overflow crowd of 250 parents who attended church services at San Quentin Prison chapel yesterday with their sons, Associate Warden James W. L. Park said today.

Folding chairs were set up outside the visiting room to handle the heavy visiting traffic, Park said.

## Fire Service Review Slated

The San Anselmo City Council will meet with Sleepy Hollow Fire District directors to consider renewal of the contract for the city to provide fire service to the district tomorrow at 8 p.m. at City Hall

The council will consider condemnation of the three apartment buildings on Red Hill which were wrecked during a slide in January, and of the one apartment building left standing, all owned by Meadowbrook Developers Inc. of Novato.

The council may award a contract for fire equipment, and its position on regional government will be considered.

## Quentin Slaying Trial Scheduled

A three-phase trial of James Boyd Mackey, 28, San Quentin inmate accused of murdering a fellow-prisoner Aug. 19, was scheduled in Marin Superior Court today to start at 10 a.m. tomorrow.

The jury trial, to be in the extra sessions court, is expected to last three weeks. Mackey is charged with the stabbing death of Jess Russell Pearce, 49. He has pleaded innocent and innocent by reason of insanity.

First phase will be on the issue of guilt or innocence. Second will determine Mackey's sanity at time of stabbing. Third phase will be penalty trial, if he is convicted.

# Secrecy On Bad Milk Was Unfair To Public

Sonoma County officials who refused to identify the Sonoma dairy which accidentally distributed contaminated milk did the public and the milk industry a distinct disservice.

A belated release of information by the Marin County authorities helped assuage the fears and uncertainties in the minds of Marin consumers, but not before inconvenience and damage had been inflicted.

Many families undoubtedly dumped milk they had purchased, and while the lid of secrecy remained in effect, many consumers were foced to boycott all dairies.

Marin dairies, who were innocent victims of the secrecy, had to incur the needless expense of running advertisements to disclaim that their milk was involved.

Whether or not all contaminated milk was off the shelves during the time of the secrecy is open to question. An immediate identification of the brand and the code numbers on the milk cartons would have pinpointed the problem. All other brands and code numbers would not have suffered the onus of suspicion, and consumers would have been saved the inconvenience and expense of tossing out good milk.

Possible economic loss to one offending dairy because of information released on the contamination does not justify withholding of the information at the expense of thousands who might suffer physcial illness.

The decision of the Sonoma authorities to withhold the information was unwise, to say the least.

We are grateful that Marin County officials saw fit to give the health and welfare of the public precedence over the protection of one dairy in Sonoma County.

We hope that in the future, when public health is at stake, Sonoma authorities will be less secretive in releasing all information necessary to safeguard Marin public health and protect the interests of Marin consumers.

## THREE MINUTES A DAY

By JAMES KELLER

**ENTERPRISING FAMILY ON WORLD VOYAGE**

A Chicago family has proved that the spirit of adventure is still very much alive in Americans today.

A retired graphic arts executive, his wife and four sons plan to sail 10,000 miles around the world on a voyage in their 52-foot trawler, the Mirage.

The ship has been outfitted for a trip that is to last from five to seven years, and will take the family down the east coast of the U.S. and through the Panama Canal. Then they will head for the Philippines, Singapore, Ceylon, and then the Mediterranean.

The boys' mother, a teacher, will keep them up on their studies with classes every morning. But, they say, geography lessons will come naturally.

Sailing around the world is one way to learn that life is a journey. But even the most confirmed stay-at-home is moving daily toward a destination.

As we travel through life, our eyes should be kept on the final goal, which is an eternity of "joy in the Lord." Whether we get there or not depends on how well we cooperate with the divine help offered us.

**"You did show me the path of life; in Your presence there is fullness of joy."**
**(Psalm 16:11)**

Alert me, Lord, to big opportunities — and small ones too -- to prepare well for eternity.

AFFAIRS OF STATE

# Budget Juggling Begins To Look Like Famous Ponzi Wealth Plan

By HENRY C. MacARTHUR

SACRAMENTO (CNS) — The complicated financing of California state government rapidly is approaching a Ponzi-type operation which in its ultimate consummation can do nothing but inure to the ultimate disadvantage of the taxpayer.

Apparently, the days when taxpayers paid their taxes, and the state paid its bills when it received the tax money, departed with the demise of the dodo bird.

Sbustituted for this simple procedure in this era of $5 billion budgets annually is a bewildering scheme of money transfers from special funds, borrowing from idle funds, and raising money on potential bonds, all to balance income and outgo from year to year.

AND ALONG WITH this hard to understand system is the cold, hard fact that the financial finageling does little to relieve the taxpayer. Rather, the prospect of new or increased taxes hangs over his head like the sword of Damocles 24 hours a day for 365 days a year, not to mention Leap year.

In one way or another, the slender thread holding the sword breaks with the advent of each year's new legislature, and in one way or another, the boom is lowered on the taxpayers' heads.

THE MANEUVERING of the Reagan administration to avoid imposition of the disliked and uneconomic withholding tax, which is cited as the only way out in some quarters to enable the state to pay its bills next winter when cash is short in the general fund, is a prime example of the extremes to which the state's financiers are going to make money grow where the water run out to feed the money bush.

A. Alan Post, legislative analyst, is one who deals in hard facts, whether or not they be complicated. In an extensive supplemental report on the general fund cash flow problem, he says of the administration's plan to solve the anticipated cash deficit in December, 1967:

"THE PROPOSED administrative changes do not touch the basic problem which is the uneven flow of state revenues during the first half of the budget year.

"It calls only for a series of one-time postponements of expenditures. It's adjustments only attempt to patch a cash-flow structure which needs a drastic overhaul.

"The department of finance has left itself very little leeway to handle unforseen contingencies, such as an increase in the budget, a crop in revenues, or any other combination of events which would add to the December cash flow problem."

POST ADMITS in his discussion that the Reagan budget is sufficient along with the increased tax proposals, to meet the annual expenditure, but there still remains the problem of getting enough funds to meet the mid-winter bills.

It's conceded in most quarters that not only the matter of cash flow needs drastic overhaul, but so does the entire matter of state financing, along lines which will benefit rather than disintegrate the taxpayer. All of which could be accomplished through substitution of sound financing for politics.

THIS MIGHT happen with the advent of the millenium, but even then, it's doubltful.

## WHAT OUR READERS SAY

### Hub Park Sale Idea Distresses Citizen

Editor, Independent-Journal:

It was with considerable apprehension that I read in tonight's (May 9) Independent-Journal that the San Anselmo City Council will consider Councilman Robert M. Scott's proposal that the City sell Sorich Ranch Park land to finance city capital improvements.

Certainly other members of the Council must possess a much more far sighted and imaginative view of San Anselmo's historical past and destined future. Generous open spaces for leisure and recreation are clearly San Anselmo's most valued assets.

A proposal such as Mr. Scott's is of course not new. It wasn't long ago that proposals for the sale of federal and state park lands to finance miscellaneous projects and pay "debts" on a national scale were roundly dismissed with the derision they deserved. I'm sure San Anselmo's Council is capable of a similar judgment.

### An Invitation To Mrs. Ulman

Editor, Independent-Journal:

We too have been overdue with this letter, and, too, have been just coming out of the state of shock induced by Mrs. Adele Ulman's letter (I-J, April 28) regarding publicity pictures for the Tamalpais Valley Improvement Club's "Rhubarb Revue."

We feel that Mrs. Ulman's grandsons—6, 8, and 13—would be perfectly safe in looking at the pictures in question. Better still, if they had been children of cast members, who traditionally have attended the dress rehearsals of the "Rhubarb Revue," they would have seen a good performance with no adverse effects.

In the 13 years we have been having our children at dress rehearsals, no known instances of moral corruption have been recorded.

Someone should come to the defense of the Independent-Journal. While as a county-wide newspaper it does get criticism at times, it merits defense of its taste along the lines we are discussing.

We urge Mrs. Ulman to attend next year's show — to see for herself — and enjoy!

### Two Girls Praised For Help To Police

Editor, Independent-Journal:

After reading the detailed description of the efficient work of our local police officials in capturing the two escaped San Quentin prisoners, I came upon and read a much smaller article describing how two preteen-age girls, ages 8 and 12, led to the capture of two alleged robbers.

That they ran, escaped, and at the same time noted the license numbers and promptly telephoned the sheriff's office is so highly commendable that I felt I should write your office hoping (as it may have been done anyway) that they should be referred to in nextweek's article "Bouquets and Brickbats."

I know the parents are justly proud of those two little girls.

### Reaction From England Reader

Editor, Independent-Journal:

As a subscriber and a San Rafael resident who is temporarily living in England, I have been following with interest the reactions of your readers — in the issues which we are just now receiving — to Governor Reagan's return to the practice of criminal execution. Among these I was surprised to read Lois Owles in her letter of April 19 justifying her desire to sterilize some people by referring to the "survival of the fittest."

This is a biological principle which has been formulated to describe the outcome of the struggle for survival between different species of animals in nature. It is certainly unjustified to use it as an ethical principle to represent the relationship which one should desire between the members of the one human species in society. For one who does believe in such a fallacious extension of that principle, the only "morality" which he could consistently formulate is that the strong can do whatever they please to the weak — such as sterilize them. Such a morality would approve someone who was strong enough deciding to kill Lois Owles, just as it did approve of the State's decision to kill Aaron Mitchell, just as it did approve of Aaron Mitchell's impulse to kill the policeman; the only question this view raises is whether one is strong enough.

It is indeed peculiar that someone whose ideas, if widely enough spread, would undermine the whole basis of our society should — on the basis of those very ideas — be suggesting that all persons dangerous to that society be sterilized.

### Anti-War Appeal From A Mother

Editor, Independent-Journal:

How does the War pollute the air?

It comes as a soul-sickness, invisible, between thoughts, between joys, it comes in slivered layers of rot to spoil the moment, the hour, the day . . .

It comes on top of a white marshmallow that your birthday child is about to pop into her mouth . . . Visions spring before your eyes and you see the laughing, little face bombed, blasted, torn to shreds . . . but now the layer peels away and it was only a vision . . . of another child . . . far away . . .

Stores jammed with bright, paper dresses and my older daughter saying, when she gets married . . . And I see an armless corpse lying in a blackened field . . . There won't be enough Men . . .

There is our little son, leaping and running across the rippling grass . . .

Oh, the Curse of the War, the pollution of it . . .

Flash, flash, his sparkling eyes are suddenly slanted eyes . . . he is a brown boy, a white boy, a yellow boy . . . Up and over the great hill they go . . . goodbye, goodbye . . .

Now I know . . . they are all mine. They are all ours . . . the children of the world . . .

Mothers, mothers, we must save them!

## TRY AND STOP ME

By BENNETT CERF

FROM THE Detroit area comes the sob-provoking saga of a gent who spent more than $10,000 in a vain attempt to pilot a car well enough to get a driver's license. For his fourteenth try he had himself hypnotized to overcome what he had reckoned was a simple case of lack of confidence. With his eyes somewhat glazed, he took the wheel beside the state official, turned the ignition key — and smacked smartly into the car parked behind him. Result: one hit, one $500 repair bill, no license — and a punch in the nose for the hypnotist.

ERIC HODGINS tells about an old man whof ell grievously ill of a complication of diseases, and then, after a long siege, recovered. He was deeply pleased with this recovery: he was wont to boast that his appetite was stronger than ever, that he could walk farther, see more clearly, hear more acutely, and, in short, was better in every way, despite the burden of his years.

Then the old man would pause, and add, "Of course, I've lost my mind, but I don't miss THAT!"

## Outlook Favorable For British Admission To Common Market

WASHINGTON — The outlook for British admission to the European Common Market is increasingly favorable.

That's good. It will be good for Europe, good for Britain, and good for the United States. It will fulfill a long-time goal of the U. S. It will repair Britain's historic mistake when in the early period of the Marshall Plan it rejected the opportunity to be a founding member of the European coal and steel community and the European economic community.

Britain wasn't ready when it would have been welcomed — and Britain wasn't welcome when it was ready in 1963.

But the situation is greatly changed since General de Gaulle coolly vetoed Britain four years ago.

AT THAT TIME the British were approaching the Common Market gingerly. British opinion was divided; the political parties were divided; Britain couldn't bring itself to accept the Rome treaty unreservedly, and after 18 months of uncertain negotiations in Brussels, De Gaulle abruptly ended it all by deciding that Britain would not be a wholehearted European participant.

Now the outlook is changed both in Britain and in Europe. Once an opponent of British entrance, Prime Minister Harold Wilson is now its most ardent advocate. The British Parliament is overwhelmingly for it. Though a small minority in each party still prefers to stand aside, the conservatives and the liberals are strongly behind the application and pressing Wilson to do everything needed to get in.

HE IS DOING so. He is giving General de Gaulle little, if any, ground to argue that Britain is not "sufficiently European." Wilson's plea is that British membership will "make Europe more strong, more independent, and more decisive in world affairs."

It will, and while De Gaulle may not wish to share French influence with that of Britain on the continent of Europe, a French veto would do De Gaulle more harm than good.

It now seems pretty clear that a French veto will not be forthcoming. French spokesmen appear to be paving the way for a courteous, perhaps even a friendly, reception of the British application. By accepting the Common Market as it is, London is winning the favor of the other five European members and reducing the basis on which France could reasonably object.

BRITAIN HAS MUCH to get from the Common Market — and much to give. It urgently needs a wider market for its goods; it urgently needs the stimulus of having to compete with European industry for a place in these markets; it urgently needs the earnings which can come from them.

Britain would bring to the Common Market great technological skill and resources which the Continent needs. It would be a valuable addition to the European community.

But Britain's role in the world has so changed, indeed so contracted, as the result of two costly and grievous wars that the British people and the British government are rightly seeking to find a new role which it can perform with dignity and competence. It is convinced that that role is in Europe where its political and economic participation will be felt to good effect.

ALL OF THIS should be welcome to the United States although an expanded European Common Market will present new problems and new competition.

The blunt truth is that the United States is too strong, too powerful to be always a comfortable ally of weaker nations. It can work more cooperatively and comfortably with strong and independent allies.

EUROPE will be made stronger by the presence of Britain in its political and economic structure and the Atlantic Alliance has much to gain by a stronger Europe.

# Senator Murphy Has Role In Hot Contest

By ROBERT S. ALLEN and PAUL SCOTT

WASHINGTON — Sen. George Murphy, R-Calif., chairman of the Senate GOP Campaign Committee, isn't afraid to tread where other Republican leaders won't go.

While other senators kept hands off, the former movie star turned politician played a crucial role in the sharply contested election of Mrs. Gladys O'Donnell as president of the National Federation of Republican Women.

A favorite speaker for Republican women's groups until his recent illness, Senator Murphy helped Mrs. O'Donnell, another Californian, defeat Mrs. Phyllis Schlafly, of Illinois, a Goldwater conservative.

DURING the women's spirited convention here, Senator Murphy sent a letter to Mrs. Dorothy A. Elston, outgoing NFRW president, denouncing the efforts of some of Mrs. Schlafly's supporters to discredit Mrs. O'Donnell, also a conservative who was running on a party unity platform.

Murphy's letter was circulated among key women delegates just before the convention gave the Californian a 1,910 to 1,494 victory.

The Murphy letter, which caught Mrs. Schlafly by complete surprise, derailed a campaign by her supporters to picture their candidate as representing the liberal wing of the Republican Party.

SENATOR MURPHY jumped into the middle of the women's battle after receiving an urgent appeal for help from Mrs. Elston, a leading supporter of Mrs. O'Donnell.

Replying from his sick bed, Senator Murphy fired off a letter stating:

"I have been disturbed by the misrepresentations concerning my good friend, Gladys O'Donnell, which have been circulated in connection with the campaign for president of the National Federation of Republican Women.

"As you pointed out in your letter to me, one of these misrepresentations concerns Gladys' role at the 1952 Republican convention.

"THE CALIFORNIA delegation that year was elected at the primary pledged to vote for Governor Earl Warren for President. In other words, the delegation was bound by law to vote as a unit for Governor Warren, and all 70 members did so on the first and only record ballot. Any effort, therefore, to say that a delegate who voted for Governor Warren did so because she in fact favored him for President is completely false and misleading. The law allowed the delegates no alternative."

"I feel, therefore, compelled to speak out against any effort to discredit Mrs. O'Donnell because such activity can only be harmful to the entire Republican effort which will be so necessary if we are to win in 1968.

"Knowing Phyllis Schlafly, I cannot believe that she has knowledge of this . . . ."

When Mrs. Schlafly was informed of Senator Murphy's letter, she was visually stunned and questioned its authenticity.

Later, when one of her political lieutenants returned with the news that it was authentic, Mrs. Schlafly repeated: "It can't be true. I can't be true. There goes the election."

## If Storer's Catching Potomac Fever, The Cure Is Not Easy

Letter to Supervisor Thomas T. Storer, chairman of the Marin County Board of Supervisors.

Dear Tom:

**IT IS PERFECTLY** all right for our local politicians to emulate our leaders in Sacramento and Washington. In fact, it is probably good training.

But our local politicians should be guided by some discretion and selectivity. They do not have to copy everything our national leaders do.

**FOR INSTANCE,** Lyndon B. Johnson has developed the credibility gap. True, this is easy to emulate, but it is not good. Before Johnson got hold of it, it was talking out of both sides of the mouth. Just because he has taken it up, does not mean everyone should.

Now, Tom, I know you have been a long-suffering victim of Potomac fever. You have my sympathy. You had my sympathy when in a news conference a week ago you proposed hard labor be substituted for the death penalty in California.

Some means of solving the death penalty dilemma would be salutory. Many of our state leaders are struggling with the problem. You were smart to pick this up. Taking a crack at the death penalty shows you to be a humane politician.

**MY CRITICISM** goes to the next day. That was when you started emulating our President.

Instead of bringing up the death penalty for discussion by the board of supervisors as you said you would, you said that contrary to what we had read in the paper, you did not intend to bring it up at all.

This sent reporters back to check their notes. Quizzical glances were exchanged. What happened, anyway?

What happened was that another member of the board of supervisors spoke to you prior to Tuesday's meeting of the board and talked you out of bringing up the death penalty idea, arguing that it was not a proper topic for discussion by county supervisors.

**SO YOU WERE** dissuaded. But you did not say this. You suggested instead that the paper was wrong. That's how they doi ti n Washington.

If you had simply said that Peter H. Behr or Ernest N. Kettenhofen or John F. McInnis, or whoever it was, had talked you out of bringing the matter up, it would have won you points for honesty and hmility.

Marin should be proud of a county supervisor with ambition. So make us proud, Tom.

## State Body Says Pay Women More

SAN FRANCISCO (AP)—The Industrial Welfare Commission proposes wage hikes for California women—from $1.30 to $1.65 an hour for those in industry and from $1.25 to $1.55 for agricultural workers.

Public hearings will be held in Los Angeles June 26-27, in Fresno June 28 and in San Francisco June 29-30.

Unless the proposal is revised, the new minima will become effective Nov. 1.

## Theme Of Family Retreat Is Set

"Light, sound, dimension," will be the theme of the Holy Family Retreat Association of Marin's spring social at St. Sebastian's Hall, Saturday at 8 p.m.

Information is available from Mr. and Mrs. Timothy C. O'Sullivan, of 161 Humboldt Street, San Rafael.

## Airline's Adverse Advertising Campaign May Catch Public Eye

**WASHINGTON** — Pacific Air Lines has been waging very unusual advertising campaign pointing up the fears people have about flying. With such attention getters as "Hey, there! You with the sweat in your palms," security blankets for the passengers and painting their airplanes to look like railroad locomotives, Pacific hopes to attract passengers who don't like to fly.

It's a very dangerous campaign that Pacific is waging, but if it succeeds other industries might decide to try the same approach.

The advertising agencies are watching the Pacific advertisements with interest and already have their own ads on the drawing boards. For example, the automobile people may get into adverse advertising with this kind of ad.

**"HEY, THERE!** You with the beer can in your hand. Have you ever thought if you took your Rake X-321 out tonight you might ram it into a tree?

"Sure you're afraid to drive with all those nuts on the highways and you certainly have good reason. First of all, you're not even certain if your car is safe or not, and then you don't know if anyone else's car is safe. Frankly, the way they're building the roads these days you'd probably be better off staying in the house.

"But this shouldn't prevent you from buying a Rake X-321. For one thing it's fast — too damn fast if you ask us — and this can really scare you if you lose cotnrol. But power isn't the only thing you have to fear in a Rake X-321. It skids like mad around a turn and it's top-heavy to boot. Matter of fact, the only safety feature we have on the car is a St. Christopher medal.

**"SO WHY NOT** go out and see your Rake dealer today?"

Then there are the bathroom fixtures advertising people.

**"HEY, THERE!** You with the shampoo in your eyes. Has it ever occurred to you that more people have accidents in bathrooms than anywhere else in the house? Sure it's kind of scary — particularly when you lose the soap in the bottom of the tub or when you accidentally walk through the glass door of a shower. But what are you going to do?

"Gurgle plumbing fixtures will not pretend to you that it's safe to take a bath. We feel the more facts you know about getting into a tub the less anxious you'll be. The odds of getting in and out of a bath without hurting yourself are about 4 to 1, which are not bad considering there is so little to hold onto when you're sitting down.

"Then there's always the chance of getting scalded if you turn the wrong tap. You say it will never happen? You should see some of the mail we get from our customers.

"Gurgle doesn't have the answer to accidents in the bathroom. All we can do is provide the equipment to make the accidents possible. Write for our free booklet, 'The Bathroom Is Not Safe At Any Speed.'"

And then there are the drug people.

**"HEY, THERE!** You with the pain in your tummy. I guess you've read that Litmus stomach powders are safe. Well don't let anybody kid you. If you take the wrong dose you could be sick for two days. Litums has an active coating ingredient that works twice as fast as any other stomach powder, which could cause a lot of complications.

"The powders come wrapped individually in plastic, and if you don't pull the flap according to instructions, you'll cut your finger.

"Many people are afraid to take Litmus stomach powders.

"And they're not dumb people either.

"But we would rather you know in advance what you're getting into. Tests show bicarbonate is as good as Litmus and it only costs half the price."

And finally there are the cigarette advertisers.

**"HEY, THERE!** You with that terrible cough in your throat . . ."

No one is permanently immune to poison ivy, poison oak or poison sumac, says the American Medical Association.

## HOW TO PLAY WINNING BRIDGE

By ALFRED SHEINWOLD

### Bridge Players Can Learn From Their Cousins–Rats

"Human beings don't have enough horse sense," a rat remarked to me the other day. "They look down on us for deserting sinking ships instead of praising us for our shrewdness."

I had to agree with him: bridge players can learn a lot from their cousins of the rat family.

#### A VICTORY

West opened the queen of spades, and South refused the trick. West then led the jack of spades.

South won with the king of spades and led a club to East's king.

East was out of spades, thanks to South's careful play at the first trick, and could do nothing to defeat the contract.

#### BEST ATTEMPT

East made his best attempt by leading a low diamond, and West played the queen to force out dummy's ace. When West took the next club trick with the ace he could not run the diamonds.

If West led the low diamond, dummy would play low; and if West led his ten of diamonds, dummy would cover with the jack. Either way, South had a second diamond stopper and was sure of game and rubber.

#### MUST ABANDON SUIT

West threw the defense away when he led a second spade. The spade suit was a sinking ship, and West should have abandoned it, as H. D. Kelsey points out in his excellent new book "Killing Defense."

Since South obviously has both the ace and king of spades, West should shift to the ten of diamonds at the second trick.

#### THE DEFENSE

Declarer cannot afford to play dummy's ace. If declarer plays the jack, East wins with the king and returns a low diamond.

Now the defenders are sure of at leat two diamonds, two clubs and a spade. If South is not careful, the defenders will get three diamonds. South could limit the diamond loss to one trick if West led either the queen or the low diamond at the second trick.

Born on this day in 1894 was American novelist Katherine Anne Porter.

On this day in history:

In 1862 Congress created the Agriculture Department. Previously, farm policy had been decided by the Interior Department.

In 1869, Elizabeth Cady Stanton was elected president of a new organization aimed at securing voting rights for women.

In 1918, the first regular air mail service was established between Washington, Philadelphia and New York.

In 1963, Maj. Gordon Cooper made a 22-orbit space flight in a Mercury capsule.

## Royalty Hug Brings Denial

LONDON (AP) — Foreign Secretary George Brown denies that he gave Princess Margaret an "affectionate hug" at a Buckingham Palace reception.

The report in the Sunday Telegraph said Brown, at a reception last Tuesday for visiting King Faisal of Saudi Arabia, "put his arm affectionately around the waist of Princess Margaret."

Through a spokesman Sunday, Brown replied, "The story is completely and absolutely untrue."

# HOW TO KEEP WELL

By DR. THEODORE R. VAN DELLEN

## *Intestinal Upsets Are Common Among Foreign Nation Travelers*

VAN DELLEN

Most people stand a 50-50 chance of developing an intestinal upset when traveling abroad. Americans like to believe that it happens only to them but the disorder has been reported among British visitors to New York City and to Mexicans traveling to California. This is understandable because there is more to diarrhea than poor sanitation.

Dr. Suzanne Dandoy of Los Angeles questioned 215 students at UCLA and found that 14 per cent had diarrhea during the first month of school. Fewer American students (8 percent) had the same experience at this time. The type of foods consumed was not significantly related to the incidence of diarrhea. Most of these students were sick enough to be confined to their room for a day or two.

**NO ONE KNOW** why intestinal upsets are common anong travelers but there are theories galore. Change of water and diet head the list. Native foods, especially those that are rich and greasy may play a role. Overeating may also be responsible. Contaminated beverages and food are other possibilities and more so when sanitation is poor. The chances of getting an infectious diarrhea increase as the tourist moves toward the tropics. Even soap and water are at a premium in these areas.

Since intestinal upsets occur here as well as abroad excitement, "nerves" and a change in routine also are suspect. Episodes of diarrhea are common among the high-strung with spastic bowel. Cathartics and medicines taken to prevent "the trots" can trigger an attack. Too much alcohol, too little sleep, and no relaxation are potential offenders. To these add altitude (as in Mexico) and failure to adapt to changes in time schedules when traveling by jet

**THE TREATMENT** is adequate rest, diet, and drugs. Medicines such as paregoric, bismuth, and an antibiotic or sulfonamide are effective. Add sips of water or weak tea and gradually return to bland foods.

**(Dr. Van Dellen will answer questions on medical topics if stamped, self-addressed envelope accompanies request to the Independent-Journal.)**

**NIGHTLY JOURNEY**

Mrs. M. I. writes: My 3-year-old grandchild gets out of her bed every night while she is asleep. We find her under the bed of her 5-year-old sister. This happens three and four times every night. Is this a feeling of insecurity? Her mother goes to business every day.

REPLY

Yes. Children do this occasionally and a little more love and affection may be helpful. This is a temporary pattern.

**ENLARGED TONSILS**

Mrs. P. writes: Is surgery necessary for enlarged tonsils with no sign of infection? This child is healthy.

REPLY

Not as a rule. The tonsils are large in infancy and childhood. When surgery is recommended, other symptoms and findings usually coexist. The child has frequent sore throats, colds, or nasal obstruction.

**VANISHING NICOTINE**

D. W. writes: I quit smoking two years ago. Do you think the nicotine is out of my system?

REPLY

Yes. It usually is out of the system within 24 hours. Weeks or months may pass, however, before the desire for and the irritating effects of tobacco disappear.

**ALFALFA TEA**

Mrs. A. O. writes: Will drinking alfalfa tea relieve arthritic pains?

REPLY

This plant has no magic properties to ease arthritic or any other pain. Let's leave it for fodder.

## Car Stereo Tape Recorder Stolen

Theft of a $100 stereo tape recorder early yesterday from her car, parked in the carport of her home, was reported to police by Christine Flagg, 309 Miller Avenue, Mill Valley.

A bottle of whiskey worth $3.90 was stolen yesterday from Mill Valley Pharmacy, 402 Miller Avenue, police reported.

## Baseball Bat Used In Killing

NEW YORK (AP) — A killer with a baseball bat pounded the life out of elderly musician Fred Cavi in his Greenwich Village apartment.

Two boys passing his open door yesterday discovered the body of Cavi, 71, a onetime piano and accordion player with the Freddy Martin orchestra and holder of the Silver Star for heroism during World War I, police said.

He won the medal and another decoration for capturing an enemy machinegun nest.

Detectives said they were unable to establish a motive for the killing, but that Cavi's wallet was empty.

## Ankle Sprained By Horse Rider

Neil Gary Ford, 15, of 1801 Lincoln Avenue, San Rafael, was treated at Marin General Hospital yesterday for a right ankle sprain reportedly suffered when the horse he was riding was hit by a car on Sir Francis Drake Boulevard west of Lagunitas.

California Highway Patrol reported the accident happened at 3:45 p.m., but had not identified the driver of the car today.

## Addict Falls Short Of His Intended Goal

An Idaho drug addict, headed for Synanon House in Marshall for treatment, did not make it.

Instead, he wound up in Napa State Hospital.

Daniel Richard Elkin, 33, of Twin Falls, Ida., stopped at the Novato main firehouse at 8:29 p.m. Saturday to ask directions to the police station, but there, he suffered a convulsion.

Police took him to Novato Hospital, where he said he was a registered drug addict and was suffering withdrawal symptoms.

He said he had come to San Francisco to enter Synanon House, but found he would have to await an interview this morning. Then, he told police, he started suffering withdrawal symptoms.

He said he went to San Francisco City and County Hospital but was refused treatment. He then took a bus to Novato, hoping for more sympathetic treatment in a smaller community.

What he got was transportation to the state hospital at Napa.

The eagle has been an emblem for many nations, including European countries.

## 10—Help Wanted

**ARE YOU A SALES MANAGER?**

If so, does your company, your product, and your territory enable you to make a lot of money? If not, read my open letter below.

**ARE YOU A TOP SALESMAN WHO WOULD LIKE TO BE A MANAGER?**

If so, you, too, should read my open letter below.

Did you know that most people never find out what they're worth in the business world? An employer never evaluates how much money a man is worth. He decides how much he is willing to pay to get a job done. The job is evaluated, the man is not. The jobs I offer are man-evaluation, with more take home money as a reward. Here is my story: In home field, exhibit, military and reload, I have openings for men in EVERY county in Northern California and in Nevada. The best jobs in the subscription book industry. They would entail handling some of the most famous products in the world including the new teaching machine. Experience in our field helpful but not required. A weekly average salesman sells 2 of our orders per week. When he works hard, he sells 3 or 4. He earns $87 per order, take home pay, plus profit sharing bonus.

We have NO HOLD-BACKS—NO RESERVES —NO CHARGE-BACKS OF COMMISSION OR OVERWRITES.

and THE COMPANY PAYS ALL EXPENSES and a weekly draw against commission.

A manager on this new deal makes over $500 per week, take home, if he:

Has 10 orders a week from his salesmen and writes 2 personal orders. That kind of production is very mediocre. If you were reasonably successful and had 24 orders per week from 10-12 salesmen, & produced 3 personal orders, your take home pay would be over $1,000 per week.

If you are the RIGHT man, if you have a FIRE burning inside you, if you want to be SOMEBODY, we probably have a territory available for you.

Please write me, c/o Grolier Society Inc., 1537 Bayshore Highway, Burlingame, Calif. or call collect weekdays, 692-3522; evenings and Sundays, 349-3911.

ALL REPLIES IN STRICT CONFIDENCE

Charles "Chic" Webster

You should know these FACTS about HOME BUYING in today's market . . .

## RIGHT NOW IS A GOOD TIME TO BUY!

If you are waiting for prices to come down, you may have a long, disappointing wait. Economists predict a continuing rise in real estate prices. The same is true in interest rates. No decline is expected in the foreseeable future. All indications are that it will cost you more to buy the home you need if you wait.

REMEMBER: Multiple Listing is the fastest way to find the home of your choice . . . Ask your Realtor.

Begininning at a point in Bay Vista Drive, said point located Northwest about 400 feet from the intersection of Bay Vista Drive with Sky Road, running thence westerly along Bay Vista Drive about 250 feet.

(b) The acquisition of a right of service and use in the existing sanitary sewerage and sewage disposal facilities of the Richardson Bay Sanitary District.

(c) The acquisition of all lands and easements for the construction, maintenance and operation of said sewer mains along the routes above described and the performing of all work auxiliary to any of the above necessary to complete the same.

All of said work and improvements are to be constructed at the places and in the particular locations, of the forms, sizes, dimensions and materials, and at the lines, grades and elevations shown and delineated on the plans, profiles and specifications preliminarily approved therefor by the Sanitary Board of said District and on file for public inspection in the office of the Secretary.

Notice is hereby given of the fact that in many cases said work and improvements will bring the finished surface of the ground to a grade different from the surface as it now exists, and that to said extent said grades will be changed and that said work will be done to said changed grades.

Said contemplated acquisitions and improvements, in the opinion of said Board, are of more than local or ordinary public benefit, and the costs and expenses thereof are made chargeable upon an assessment district, the exterior boundaries of which district are the composite and consolidated area as more particularly shown on a map thereof on file in the office of the Secretary, to which reference is hereby made for further particulars. Said map indicates by a boundary line the extent of the territory included in the proposed district and shall govern for all details as to the extent of the assessment district;

Notice is hereby given that serial bonds to represent unpaid assessments and bear interest at the rate of not to exceed six per cent (6%) per annum, will be issued hereunder in the manner provided in the Improvement Bond Act of 1915 (Division 10 of the Streets and Highways Code), the last installment of which bonds shall mature at not to exceed fourteen (14) years from the second day of July next succeeding ten months from their date.

The descriptions of the acquisitions and improvements and the termini of the work contained in the Resolution of Intention are general in nature. All items of work do not necessarily extend for the full length of the description thereof. The plans and profiles of the work, and maps and descriptions, as contained in the Engineer's report, shall be controlling as to the correct and detailed description thereof.

Except as herein otherwise provided for the issuance of bonds, said work shall be done pursuant to the Municipal Improvement Act of 1913.

Reference is hereby made to proceedings had pursuant to Division 4 of the Streets and Highways Code, all on file in the office of the Secretary.

Notice is further given that the District Engineer, pursuant to said Act and said Resolution of Intention adopted pursuant thereto, did on the 18th day of April, 1967, file with the Secretary of said District his report in writing on said acquisitions and improvements, consisting of plans, profiles, specifications, estimate of costs and incidental expenses, diagram and assessment, maps and descriptions, and said Board did on said date consider and examine said report and by resolution preliminarily approved and confirmed same and ordered that said report shall stand as the report for the purposes of all subsequent proceedings had pursuant to said Resolution of Intention.

NOTICE IS FURTHER GIVEN that Tuesday, the 23rd day of May, 1967, at the hour of 8:00 o'clock P.M. of said day, in the regular meeting place of said Board, Trestle Glen Sewage Treatment Plant, Jefferson Avenue and Tiburon Highway, Tiburon, California, are the time and place appointed and fixed by said Board when and where it will consider and finally determine whether the public interest and convenience require said acquisitions and improvements, and when it will consider and determine whether the owners of a majority of the area of the property in the proposed assessment district have protested against said acquisitions and improvements or any portion thereof, and when and where it will consider and finally act upon the Engineer's report filed pursuant to said Resolution of Intention and when and where it will hear all protests in relation to said proposed acquisitions and improvements, or to the grades at which said work will be done, or the extent of the assessment district, or to the Engineer's estimate of the costs and expenses thereof, or to the proposed diagram and assessment, or to the maps and descriptions, and that any person interested may file a written protest with the Secretary at or before the time set for the hearing referred to herein.

## Inmate Fair From Stabbing

James Hinojosa, 28-year-old San Quentin Prison inmate, was in "no more than fair" condition today after being stabbed 11 times yesterday by an unidentified assailant.

A block sergeant found Hinojosa lying woulded after he heard screams in the south block and investigated, according to W. L. Luster, officer of the day.

Hinojosa suffered serious wounds in the back, chest and stomach. He was stabbed with a scissors blade found nearby, but no one was near Hinojosa when he was found.

Hinojosa was sentenced from Los Angeles County in June, 1964, for forgery and possession of forged checks. He is serving a sentence of six months to 14 years.

*TELEVISION REVIEW*

## Parr Very Aware Of His Medium

By RICK DU BROW

HOLLYWOOD (UPI) —Jack Paar, who has done more for Hollywood than it ever did for him, applied his brand to filmland last night in a saucy, irreverent NBC-TV hour, one of his annual specials.

And I think that what is most remarkable about this consummate showman is that, even virtually retired from the theatrical business, he remains more aware than his working contemporaries of all the subtleties and innuendoes of the art of television, and how to blend them with finesse.

SENSITIVITY

In this latest hour, "A Funny Thing Happened on the Way to Hollywood," his usual amalgamation of film clips, monologue, conversation and guest entertainment showed anew his awareness of all phases of the film and performing arts, and his sensitivity to the current moods and attitudes of his audience.

For Mr. Paar seems entirely alert to the fact that television is a "now" medium, and that in order to succeed in it as the host of an adult program—to give a feeling of being entirely "with it"—one must give the impression of having read more than show business papers with breakfast.

It is not merely the information one gets from reading widely and selectively, but the feeling of responsiveness for the creative moment—the preparation so that one is able to recognize it, and react to it properly. Mr. Paar's reactions are as attuned as ever, which is why, even in virtual retirement, he remains the king of television. I hope he gets a little bored at home soon. Television needs him.

A PERSPECTIVE

The reactions of mature humorists, of genuine satirists, are, at base, the reactions of cultivated men to the stupidities and indignities of the world around them. And throughout some of the film clips shown last night — of, say, a screen test or an embarrassing passage—one sensed a deeper, prohumanist outrage at the humiliation decent, talented people must often suffer in pursuit of their dreams. One could only admire this sense of perspective.

Most of the clips, of course, were great fun. But lots of people have used clips, and the secret to a Paar show is more than that. Even on tape, he can radiate that tingling sensation of unexpectedness, so that the audience is constantly on edge, never knowing what outrageous thing is going to happen next. He sometimes courts disaster—as in Sunday night's tightrope of an interview with Judy Garland—yet he almost always manages to swing his way out gloriously, for he is a man of taste, and there is no substitute for that.

HAPPY MIXTURE

Furthermore, in his understanding of the television medium, he has that happy mixture of instinct that results in intimacy. And intimacy is the key word in any understanding of how to really succeed in an adult way in live—or live-on-tape—television. I think it would be wrong to interpret Sunday's show as Paar's revenge. In his own unique way, he has been something of a Samuel Pepys of the home screen. He has the capacity to do great things as a television diarist. Given the opportunity, he could move to an entirely different level of accomplishment.

## Church Breakfast Session Postponed

The regular Miller Avenue Breakfast gathering in Spangler Hall of Mill Valley's First Baptist Church has been postponed from May 25 to June 1 at 7 a.m.

The breakfast hosts, Rev. and Mrs. John MacDonald, are to attend the American Baptist Convention in Pittsburgh through Sunday and will not return in time for the May 25 date.

## Pope Back To Normal Schedule

VATICAN CITY (UPI)—Pope Paul VI resumed his normal busy schedule today after the "unforgettable" experience of his peace pilgrimage to the Fatima Shrine in Portugal.

The pointiff rested yesterday after his tiring trip but made his regular weekly appearance at his study window to bless the crowd in St. Peter's Square.

Today, Vatican sources said, he was resuming his regular routine of appointments, study and prayer in the Apostolic palace.

The Pontiff returned to the Vatican late Saturday night from his 16 hour trip to Fatima. A crowd of 100,000 greeted him in St. Peter's Square with flickering torches.

The Pope told them the trip was "unforgettable." He said it was "a wonderful experience which showed the path for building a world such as we desire it —prayer, humility, concord and good will."

## Clergy Heckled During March

LOUISVILLE, Ky. (AP) — Members of a group composed mostly of white clergymen were hit, heckled and splashed with mud during a demonstration in support of open housing.

The interfaith churchmen-sponsored march in the city's South End yesterday was designed to show that "a wide variety of groups are concerned about open housing."

As the marchers, numbering about 90, got ou tof their cars for the demonstration, a heckler struck Rev. R. Brooks Gibson in the mouth. The minister made no move to fight back.

## Many Boycott Birthday Event

JERUSALEM, Israel (AP) — Israel celebrated her 19th independence day today with a parade of 1,600 soldiers while generals from Syria and the United Arab Republic started talks on joint defense against her.

Almost the entire diplomatic corps stayed away from the parade past some 150,000 cheering Israelis in the divided city of Jerusalem, saying their attendance might increase Arab-Israeli tension further.

David Ben-Gurion, 80, former prime minister and defense minister, boycotted the parade because he said it should have included all the arms at Israel's disposal regardless of armistice limitations.

## Balladeers Give Exciting Program

By MAYBELLE SPECKMANN

Marais and Miranda, renowned balladeers, assisted by Carol Merrill, presented the first of five Sunday afternoon programs yesterday in a style far from the present-day folk scene.

Fans of this delightful couple — and there were many, judging from the large variety of calls for favorites from their repertoire — could have no better place to hear them than in the Festival Theater on the grounds of the San Francisco Theological Seminary in San Anselmo.

**EFFECTIVE STAGE**

Because of the various levels, ramps and dramatic lighting effects, the stage setting of the Festival Theater's current production of "The Old Glory" is an extremely effective background for their concerts with gay costumes, props and a vairety of instruments.

The music is not strictly "folk," since Josef Marais has adapted traditional melodies and words to his own style and purposes as did the minstrels of old, and some numbers are his own original compositions.

His musicality is not in his voice but in his creative talents and a quality of his unobtrusive but beguiling guitar accompaniments.

His wife, Miranda, has a very lovely light, sweet sporano voice, which is its most enchanting on high, soft sustained notes. She has a flair for comic effects in both voice and facial expression, such as in her hilarious portrayals of an old donkey in "The Donkey's Lament" and a frog in the "Eleven Little Froggies."

**PLEASING VOICE**

Carol Merrill, a pretty young girl with a fresh, untrained voice, joined the couple for the concert. She contributes largely through the pleasing blend of her voice in trios and duets and through some flute obbligatos.

Their program, called "The World is Singing," is a charming one from many lands. An excellent idea was repeating foreign lyrics in the English lines composed by Marais.

Among many highlights for us were "The Train to Kimberley" with Miranda portraying a locomotive, and the aforementioned "The Donkey's Lament," and "The King and the Marquise." This last tragic tale of the death of the marquise from a poisoned bouquet was espeically interesting for Marais' accompaniment on a 1650 viola d'amore, a seven-stringed instrument somewhat like today's viola.

**OLD INSTRUMENTS**

Other fascinating instruments heard were a viol de pochette — a tiny "pocket" viol played by Marais while Carol Melville accompanied on the mandolin and Miranda performed on a claviette, a small keyboard played with the fingers of the right hand while air is blown through a tube held in the mouth.

Audience participation is invited on familiar refrains.

The whole program is sheer entertainment, appealing to both adults and children. Take the youngsters — they'll love it.

### Crazy Quilt Premiere

John Korty, producer and director of the offbeat film "Crazy Quilt," and Ellen Frye, one of the stars of the movie, will attend the opening of the film at 6:30 p.m. Wednesday at Northgate Theater, San Rafael.

### Mrs. America Begins Duties

SAN DIEGO (AP) — The new Mrs. America, Mrs. John Cochran of Shawnee Mission, Kan., today begins a crowded schedule that will leave her little time at home during the next year.

Marlene Cochran, 34-year-old mother of two, will make personal appearances in Southern California before returning home Friday night. Next Sunday she embarks on a 24-city tour.

Mrs. Cochran, who won the crown Saturday night after a hectic 10-day pageant, said: "I thought I had done everything wrong. Every time I laughed too loud, I would turn around and there would be a judge."

### Annual Kiwanis Rodeo Date Set

The Kiwanis Club of San Rafael will hold its eighth annual rodeo at 1 p.m., June 4, at the Circle V Ranch, Fairfax.

Peppermint Twist, a spotted cross-Brahman bull which at last year's rodeo was ridden but once in 20 tries, will be a star animal attraction. Animals are being provided by Andy Amsbaugh of Modesto.

### Painting Display

END OF A LONG RUN — Terra Linda distance star Bob Bunnell hits the finish line at the end of a long two-mile race with a big breath for a first place in the Marin County Athletic League track and field championships at Tamalpais Saturday.

# Tamalpais Trackmen Upset Redwood

By GARY TISCHLER

All Tamalpais High School really needed was to be an underdog.

The Indian trackmen, crippled and wrapped up in tape, their ace high jumper not even in the qualifying lists, made the most of available talent and pushed aside favorite Redwood to win the 1966 Marin County Athletic League Track and Field Meet with 81 points on a sunny, sultry Saturday afternoon at Tamalpais.

Redwood, which had placed 28 qualifiers into Saturday's finals, saw only 17 of them place and finished second with 72 points, despite a record-breaking performance by Craig Scott in the discus and unexpected clutch efforts from Rob Cole in the high jump and Ron Kesiecker in the two-mile.

**BIG WINNERS**

The Indians had 17 of their 23 qualifiers place, not counting a victory in the 880 relay, but the big winners were taped-up and crippled dash star Allen Lee and Reggie Walker, who made a surprise shambles of the 440 in addition to winning the long jump.

Terra Linda, with Lowell Harris surprisingly edging out teammate Tom Flautt in both hurdles events and Bob Bunnell breezing to victory in the two-mile was a strong third with 57½ points, followed by Novato with 30; Drake, 20; Marin Catholic, ?, and San Rafael, 2½.

It was also a good Class B day for the Indians who upset favored dual meet champ San Rafael by a couple of points, 74-72, in a meet that saw five records tumble. Drake was a distant third at 40, followed by Novato with 36.

It was even tighter in the frosh division where Redwood won with 55 points, paced by super-mite Wayne Horiuchi who broke records that he had set in the trials in both the mile and 440. Novato was second at 54, followed by Terra Linda, 45.

**GOOD SHOWING**

Redwood put up a good showing in the varsity but it wasn't enough.

Scott broke the discus mark of 154-7 set by Gary Wittenmeier of Marin Catholic last year by a good three feet with a mighty toss of 157-7½, a throw that the red-haired senior planted near the edge of the fence next to the highway.

That was the only varsity mark to fall Saturday, although Bunnell shattered the two-mile record with ease Tuesday.

Bunnell's expected race from Novato's Bob Walton fizzled in the sun. Walton stayed with the Terra Linda junior until the final two laps, when the effort began to show and Bunnell left him in the dust.

Bunnell looked as if he could go another five laps and was surprised that he finished with a 9:57.4 time. "It's hot out here," an official told him. Walton's bid probably cost him second place when Kesiecker passed him on the last lap.

**SURPRISE**

Redwood also got a surprise effort in the high jump where Cole, who had not cleared 5-11 this year won at 6-0, topping Larry Stewart of Novato on fewer misses. San Rafael's Paul Leete, who has cleared 6-2½ this year finished in a tie for fourth.

Redwood got a jolt in the 440 where Gary Stevens finished a distant fourth and Walker won while Terra Linda picked up three places, cutting off Redwood points. It was at this point that Tam took over the team lead.

Walker also won the long jump

### Herman Growls About That Certain Story

**THE BOX** — Horace Stoneham's private box at Candlestick apparently is the source of some good or bad baseball stories.

Take, for example, the day Horace left his throne before the end of a game when the Giants were doing badly. A wire service reporter immediately surmised the owner of the club was miffed and on the verge of firing Manager Herman Franks. Big story.

Well, yesterday injured first baseman Willie McCovey was seen in the box with Stoneham, enjoying the doubleheader sweep.

**I AM WAITING FOR** a wire service to come out with a scoop that McCovey will be the next manager.

Yesterday in the clubhouse Franks mentioned the aforementioned story: "You wonder why I get mad at reporters! It's because of stupid stories like the one about me being on my way out because Mr. Stoneham left the ball park early. What if he did? Why in hell didn't the idiot (reporter) check his facts first and see why Mr. Stoneham left?

### 'How Would You Feel In My Shoes?'

"All he did was draw the conclusion since we were playing bad baseball at the time and then he saw Stoneham's box with no Mr. Stoneham. So I was going to be fired!

"Now every National League city I go into 50 reporters come up to me and I have to explain the whole story to them over and over again. How would you feel about reporters if you were in my shoes?"

**OKAY, OKAY, HERMAN,** calm down. It's getting so that every time the owner of a ball club leaves his box to go to the powder room the manager is on his way out.

Changing the subject, Franks enthusiastically discussed his team captain, a man named Willie. "Hey, how about that Mays in the ninth inning stretching a single into a double? He is the only man in baseball who could have done that.

### At 36 Mays Is Still Mr. Hustle

"Just think: The second game of a doubleheader, ninth inning, 36 years old and he pulls a stunt like that! People are lucky to see the greatest ball player who ever lived."

**BALLING OUT** — Look for the Giants' Gaylord Perry to win his next start. Sadlord, who is pitching too high and not very smart and as a result can't get a dog out of a pound, was chewed out something fierce by Franks after the Astros cuffed him around in yesterday's first game. And when Herman growls his troops usually bounce back with supreme efforts.

### Quite A Big Order: 27,500 Bats

**BATTER UP** — The Giants' bat day gimmick Saturday, in which every kid customer age 14 and under received a genuine Louisville Little League bat, was a resounding success with a crowd of 42,500 at Candlestick for a game with the last place Astros. The Giants gave away 27,500 of the wee willows at a cost (to the Giants) of 96 cents apiece. I think they retail for about $3.

**CAN YOU IMAGINE** the scene in some sports shop. An executive from the Giants walks up to the clerk and says, "I'd like 27,500 Little League bats, please."

Anyway, I felt rather silly Saturday. I mean, wearing knee pants, licking on a big sucker and crying "Daddy, daddy, I wanna bat."

But, what the hell, I'll do anything for a Little League slugger.

# Tamalpais Swimmers Win Meet; Eight Records Fall

Records fell and Tamalpais High School rose at Redwood Saturday as the Indians took first place in the Marin County Athletic League swimming championships.

Eight league records went down the drain, four set by the varsities, and four in class B competition. Tam won the varsity team title with 70 points over second place Terra Linda, which scored 57½. Drake and Redwood tied for third with 48 points each. Novato had 25 and San Rafael 22½.

Drake, the league dual meet champion, accounted for three of the records. The Pirates' time of 1 minute, 42.1 seconds in the 200 medley relay is one of the fastest times in the nation this year.

Bob Girvin, a member of the record relay team, also broke the record for the 100 back with a time of 58.7.

Other varsity record breakers were Paul Sagues of Drake with a 22.9 in the 50 free, and the Tam 400 free relay team which topped the old mark by four seconds with a time of 3:36.5.

All six places in each league event qualified for the North Coast Section division meet scheduled Saturday at Redwood High. The six top finishers there advancet ot he NCS finals at Santa Rosa the following Saturday.

Redwood's victory with 88½ points in class B was largely the result of two record-breaking performances in the relay events. The Giants set new marks in the 200 medley and the 200 free with times of 1:53.1 and 1:38.7 respectively.

Tam's Bruce Averill accounted for the other two records and helped the Indians finish second with 67 points. Averill shattered the mark in the 100 individual medley with a time of 1:01.9, and broke the record for the 100 back in the trials with a 1:02.8. His time of 1:03.3 in the finals also was better than the old record.

In third place in the B competition was Drake with 38

## Stanford Coach Not Too Happy

STANFORD (AP) — Stanford football coach Jahn Ralston will work in practice in having his Indians hold on to the ball and preventing the other team from getting its hands on it.

He expressed displeasure last Saturday in his squad's pass defense as the Varsity beat the Alumni 27-3.

Also, quarterback Gene Washington was named co-player of the game although he completed only three of nine passes. His receivers dropped a few that were placed directly in their hands.

(His longest pass completion was a 42-yarder to Larry Stein of San Anselmo, a Drake High School graduate.)

Washington netted 34 yards rushing and grossed 72, including a 26-yard touchdown twister through the entire Alumni team.

Alumni quarterback Dave Lewis, Washington's competition last season, was the other player-of-the-game for completing 9 of 11 for 85 yards.

## San Rafael Nine Splits Doubleheader

San Rafael Braves semi-pro baseball team yesterday split a doubleheader with New Pisa of San Francisco, winning the opener 3-2 before dropping the nightcap 4-3 before some 200 Mother's Day fans at San Rafael's Albert Field.

Rich Jeffries' two-run double in the fifth inning gave the Braves their winning first game margin, enabling Bill Wakefield, second of four pitchers, to post his third victory of the year. Veteran lefty Bob DeRosa was credited with his first save of the year in a seventh-inning relief stint.

Brightest spot for San Rafael in the nightcap, the Braves' first loss of the season, was the five-inning scoreless relief pitching by righthander Ben Trujillo. In running his consecutive scoreless string to 11 innings, Trujillo struck out 11.

Bill Connolly and Rich Jeffries each had two hits for San Rafael in the nightcap.

# At Last Giants Reach .500 Level

## S.F. Opens Chicago Series

Some baseball players never have a chance for revenge after being struck by a pitch, but it took San Francisco Giants' outfielder Ollie Brown just two days to complete his vendetta against Houston Astros' pitcher Claude Raymond.

Brown, who was felled by a Raymond delivery to the jaw Friday night, bounced back with a 2-out, 2-run, 9th-inning home run off Raymond in the second game of a doubleheader yesterday as the Giants swept the Astros 11-6 and 4-3 to climb into the National League's first division.

The Giants, who played the Chicago Cubs this afternoon to open a three-game series, pulled up to the .500 mark with a 14-14 record following the four-game sweep of the Astros. It was the first time San Francisco reached that plateau since posting a 1-1 record to start the season.

The last-place Astros were headed for a split yesterday as rookie right-hander Don Wilson enjoyed a 3-0 lead going into the bottom of the eighth in the nightcap.

**OLLIE AT .295**

Brown, who raised his average to .295 with four hits in the twin bill, opened the eighth with a double and went to third on pinch hitter Bob Schroeder's single. Ken Henderson's single and centerfielder Jim Wynn's error scored both runners for a 2-3 and Raymond relieved Wilson.

After winner Mike McCormick held Houston scoreless in his one - inning stint, Willie Mays greeted Raymond with a double to center to open the ninth. Mays was out at third on Jim Hart's grounder and Norm Siebern flied out to left.

Brown stepped to the plate and unflinchingly belted his first home run of the season over the screen in right center. Ollie ecstatically danced around the bases behind Hart, then was mobbed by teammates at home plate.

Brown, playing with the inside of his mouth stitched following Friday's incident, exemplified the Giants' hitting in the sweep. They collected 23 hits, 10 for extra bases.

**SEASON HIGHS**

Most of the damage was done in the opener as the team attained new season highs for hits and runs. They collected 16 hits in the free-wheeling contest.

Two-run homers by Ed Mathews and Joe Morgan helped the Astros take 6-2 lead in the top of the 4th against Gaylord Perry. The Giants got one run back

# Knudson Captures New Orleans Open

NEW ORLEANS (AP)— George Knudson, like Frank Beard, will always have fond memories of the 15th hole at Lakewood County Club.

Knudson, an ex-caddy from Canada, used a shot "I didn't know I had in my bag" yesterday at 15 and went on to capture the $20,000 first prize money in the $100,000 Greater New Orleans Open Golf Tourney.

He beat Jack Nicklaus by a shot, keeping the Ohio strongboy from his first official victory on the PGA national tour this year and wheting Nicklaus' appetite for this week's Colonial National Invitational in Fort Worth, Tex.

Nicklaus made no excuses, save for a wry comment about landing in a bunker "where it looked like about 30 people had been walking in it."

"Well, on to next week," he said as he picked up his $12,000 check for second place.

**BIRDIE**

Knudson, 29, was the only player in this year's tourney to get a birdie on the 530-yard par 5 hole. Beard, who finished third this year, won the tourney last year with an eagle on the same hole.

Nicklaus hit what "I thought was a good putt" from three feet on the same hole for a birdie, "but it hit the bottom of the hole and came out."

Nicklaus and Knudson began the final round over the wind-swept course, with its 7,020-yards playing short because of sun-baked fairways, tied for the lead. Beard was two shots back.

Knudson wound up with a 70, two under par, for a 72-hole score of 277. Nicklaus' final round was 71. Beard had a 70.

Bob Charles, Billy Casper, Tommy Bolt, Gardiner Dickinson and South African rookie Cobie LeGrange all deadlocked for fourth earning $3,820 each.

Casper and LeGrange had closing round 67s.

**TWO EAGLES**

Knudson's rounds of 71-66-70-70 included 18 birdies and two eagles. "If you sink that many birdies I think you should win." Married and the father of two young boys, Knudson plays the tour when the fancy strikes him. He won the Canada Cup individual championship last year.

The big check here boosted his earnings for 1967 over $34,000 — more than he's ever won in a single season on the tour before.

Casper won the All America Gold Cup and the $5,000 cash for first that goes with it. The award goes to the golfer with the lowest combined scores for award goes to the golfer with the lowest combined scores for this tourney, the Masters, PGA and U.S. Open.

Arnold Palmer had a 10-stroke lead in the competition for the cup coming into this tourney, but decided to skip New Orleans and spurned the extra dough.

# Phony Soccer For Television

TORONTO (AP) — Referee Peter Rhodes said yesterday that 11 of the 21 fouls he called in the nationally-televised Toronto Falcons-Pittsburgh Phantoms soccer game were phonies to allow CBS to work in its commercials.

Rhodes, a Yorkshire-born referee imported to handle games in the National Professional Soccer League, has an electronic unit and a small receiver unit strapped on his back for televised games.

"I get three beeps on the radar thing and then I hear the producer saying, 'a commercial is coming up' so I have to get the play stopped."

Rhodes said he visits each dressing room before the game and tells the players to lie down or feign protest at his call when he blose blows the whistle.

"The players all co-operate because it gives them a breather and at the same time its making money for the league," he said.

with a 22-2½ leap, two inches short of the record and finished third in the 100 to garner point honors for the day with 25.

Lee, despite a long layoff and his thigh wrapped up in tape and bandage, won both the dashes easily, albeit in slow times of 10.5 in the 100 and 22.8 in the 220. That is, slow for Lee, who has done 9.5 and 21.6.

Harris, who usually splits the hurdles with Flautt, nicked his teammate at the wire in the highs in an upset and went on to take his sure winner in the lows.

"B" RECORDS

If there were few records in the varsity meet, there were plenty for the Bees with the biggest coming in the pole vault where San Rafael's Paul Vanderbilt clipped a full nine inches off the old mark of 11-5 set Wednesday by Rich Ehahart of Drake. Vanderbilt had to settle for 12-3 after missing closely at 12-6 three times.

The other records to fall were also fresh ones set in the trials earlier in the week in the long jump (21-9 by Herb Rowland of San Rafael), in the 440 by Dan Payne of Tamalpais (52.8) in an upset over Dave Bariski of San Rafael, in the 180 lows again by Rowland (21.0) and in the mile by Bruce Boyd of Tam (4:49.6).

The top five finishers in each event qualify for the North Coast Division III meet at Santa Rosa Junior College Friday, beginning at 2:30 p.m.

## Bob Spencer Wins Over-Bottom Race

Bob Spencer of Lucas Valley was the only Marin winner at the Oakland Yacht Club's Shakedown over-the-bottom power boat navigation race Saturday.

Spencer, competing out of Loch Lomond Yacht Club won the whole thing with a first place overall finish in Class A.

BIFF BUFF

"Biff has a childlike faith that eating a breakfast food endorsed by Willie Mays will turn him into a regular lion for the San Rafael softball league season."

## Marin Softballers Split Twin Bill

Sohner Tree Service softballers awakened from their early season lethargy in the second game of a doubleheader yesterday in Vacaville to pound out a 14-0 victory over Vacaville's Top Hat Creamery.

The Treemen made a series of miscues in the field and on the bases as they dropped a 5-4 verdict in the opener.

Gary Swarm paced the Sohner attack with five hits in the twinbill.

The San Anselmo club plays a doubleheader in San Francisco Wednesday against Presidio Army and then hotss Rector Motors of Redwood City Saturday night at San Rafael's Albert Park.

## Mark Vance Wins Crown

Drake High School senior Mark Vance Saturday won the North Coast Section, California Interscholastic Federation singles tennis championship in the annual tournament played at Hayward State College.

Runner-up last year and seeded number two this year, the 6 foot, 165-pound Vance upset topseeded Steve Sansome of Eureka in the finals, 6-1, 6-6, 6-3. Earlier in the day he downed Geza Karad of Napa, 6-0, 6-0 in quarter-finals and Tom Discher of Castro Valley, 6-9, 5-7, 6-3, in semi-finals.

Eight Northern California league champions participated.

In the doubles competition, San Rafael High's Tom Klyce and Tom Lugo were eliminated in their first round by Don Ross and Don Barber of Napa, 6-3, 6-3.

## Frank Campagna Wins Golf Title

Frank Campagna won the Indian Valley Golf Club's spring handicap tournament title yesterday by downing Art Sears, one-up.

Al Leach took the consolation flight with a one-up victory over Tom Washington.

# U.S. Men Whip Europeans In Indy 500 Qualifying Runs

INDIANAPOLIS, Ind. (AP) — Americans whipped Europeans so soundly in the first half of the Indianapolis 500-mile race qualifications that a British car builder made a public apology to his drivers.

Mario Andretti hiked the 10-mile record to 168.982 m.p.h. Saturday and other Americans took the next 14 spots in the lineup. Then Lotus builder Colin Chapman apologized to his former world champions Jimmy Clark and Graham Hill.

Another scheduled session yesterday was rained out.

Clark, the 1965 Indianapolis winner, had only the 16th best speed of 163.213 m.p.h. Hill, last year's winner, was so far off the pace in his warmup laps that he made no attempt to qualify Saturday.

WASN'T READY

Chapman explained that he spent too much time working with a 16-cylinder BRM engine, which wasn't quite ready for the big Indianapolis track, and it was too late to prepare the chassis properly when he shifted to Ford V-8s.

Late in the 1966 race, Britishers Jackie Stewart, Hill and Clark were running one-two-three. Stewart qualified for the 23rd starting spot Saturday at 162.221 in an English-built Lola Ford.

They weren't about to go home this year. Although Clark started and finished second in '66, Hill had started 15th and Stewart 11th. Andretti and other hot qualifiers fell out in wrecks and engine failures.

The Italian-born but thoroughly Americanized Andretti missed the Speedway's 170 m.p.h. "barrier" by only .06 second in his best lap that set a new standard of 169.779. His Hawk Ford, built by Clint Brawner of Phoenix, Ariz., was an all-American product except two small parts made by Jack Brabham, world road racing champion driver and manufacturer.

FRONT ROW

Dan Gurney, international racer from Santa Ana, Calif., moved into the front row beside Andretti with a 167.224 average in his own Eagle Ford. Gordon Johncock, Hastings, Mich., took the third spot at 166.559 in a Gerhardt Ford.

A. J. Foyt Jr. of Houston, Tex., who has won more major American open cockpit races than any other driver in history, made a great comeback after his worst season last year. He qualified a Coyote Ford of his own design with the fourth-best speed of 166.289.

Joe Leonard, San Jose, Calif., at 166.098 in one of Gurney's four Eagles that made the lineup, and Parnelli Jones, at 166.075 in the unique STP turbine car, filled the second row.

After 33 cars are qualified, they still can be eliminated in the reverse order of their speeds by later, faster runs. There will be two more qualifying sessions next weekend.

in the bottom of the inning before exploding for a pair of four-run innings in the fifth and sixth.

Five singles featured the fifth inning rally with Jim Davenport's pinch hit providing the go-ahead run. Mays' double and Hart's three-run homer off Bo Belinsky were the big blows in the sixth.

Ray Sadecki, who worked a scoreless fifth inning, was the winner in the opener. Joe Gibbon was even more effective however, blanking the Astros on one hit over the last four innings. Gibbon also pitched two scoreless innings in the nightcap.

But hitting was the big news. Tom Haller extended his batting streak to nine games with hits in both contests; Mays collected three hits to raise his average to .304, and Siebern belted three hits in the opener after going 0-for-17 in his N.L. debut.

Jim Wynn collected five hits for Houston, but it was Oakland's Morgan who made the biggest noise with a "home run" that wasn't. Morgan belted a ball off the right field fence to the right of the foul pole with John Bateman on base in the fourth inning of the second game.

First base umpire Ed Vargo ruled the hit a home run, touching off a protest by the Giants. Plate umpire Ken Burkhart over-ruled Vargo and called it a foul ball. An enraged Morgan had to be pushed away from the umpires by coach Nellie Fox three times before order was restored.

# Smith, Mates Stole Show

FRESNO (AP)—Sprint sensation Tommie Smith, who anchored San Jose State relay teams to world and American records, presumably has decelerated today and is savoring the achievement.

"I'm still in a daze, but it'll hit me later," Smith said Saturday night after electrifying 14,000 fans in Fresno State's Ratcliffe Stadium, scene of the 41st annual West Coast Relays.

The Spartan foursome of Ken Shackelford, Bob Talmadge, Lee Evans and Smith blistered the track for a world record 1:22.1 in the 880 - yard relay, erasing Abilene Christian's 1:22.6. Smith's anchor leg that brought the crowd to its feet was timed unofficially as an incredible 19.4.

San Jose State Coach Bud Winter was understandably jubilant. "Wow, the guys were thinking world record and talking it all week," said Winter. "It was just a matter of doing it."

**RETURN**

Only 50 minutes later, the same quartet came back to speed through a :303.5 mile relay, a new American mark and the second best in history. A Trinidad - Tobago national team ran 3:02.8 last year, while the former American record was 3:04.5, shared by Arizona State and Southern University.

Smith was timed in 45 seconds flat for his quarter-mile leg, but Evans, the National AAU 440 champion, was caught by the lockers in 44.6.

Pole vaulter Bob Seagren of Southern California and ageless long jump champion Ralph Boston approached closest to world records among the army of more than 2,300 high school, junior college, college and club competitors.

Seagren set a national collegiate record of 17-4½ nad narorwly missed twice at 17-7 in an attempt to surpass John Pennel's 17-6¼ world mark.

Boston, who won an Olympic gold medal in Rome seven summers ago, leaped 27-2¼, just short of his own world record 27-5.

In addition, there were six other meet standards established by the impressive cast of intercollegiate and open class performers in ideal weather.

**JUMPS 7-2½**

Arizona's Ed Caruthers cleared 7-2½ in the high jump, and American record holder Jay Silvester, competing unattached, hurled the discus 201-2½ for meet records in the field events.

Ron Whitney of the Southern California Striders looked especially strong in the last 100 yards to turn in a 50.1 clocking in the 440-yard intermediate hurdles.

Two-miler Tracy Smith, now running for the Santa Monica Athletic Association, ran an 8:32.5, while Texas El Paso freshman Kerry Pearce, an Australian, registered a 9:00.2 in the grueling 3,000-meter steeplechase.

Terry Thompson of the Oregon Staters Track Club was timed in 1:48.9 for another meet record in the 880.

UCLA, national collegiate champion a yea rago, won college team honors with only one winner—Ron Copeland, who took 120-yard high hurdles in 13.8.

The Bruins scored 59 1-3 points to California's 37½, New Mexico's 37, Southern California's 37½, New Mexico's 37, Southern California's 36 2-3, defending champion Brigham Young's 31½, and San Jose State's 31 1-3.

*NUMBER 500*

## It Took 10 Days But Mick Did It

NEW YORK (AP) — Mickey Mantle had gone 10 days without hitting a home run. He had done that before, but this time the homer he was missing was No. 500 in his illustrious career.

As such steps to a magical plateau have a tendency to do, this one put a slightly heavier burden on Mantle.

The days passed by, and Mantle began wondering when he would statistically step up into the class that only Babe Ruth, Willie Mays, Jimmy Fox, Ted Williams and Mel Ott had reached.

The rest of the New York Yankees wondered to. So did the Yankee fans. Even Merlyn Mantle began to wonder.

"I talked to my wife on the phone last night, and she said, 'When are you going to hit this thing?' " Mantle related yesterday. "I said I better do it tomorrow (Sunday, and get it over with."

Mantle obviously is a good husband. When he tells his wife he's going to do something, he does it.

No. 500 came in the seventh inning and gave the Yankees a 6-5 victory over the Baltimore Orioles.

The homer, off reliever Stu Miller, gave the Yankees a 6-4 lead, but it proved to be the decisive run when the Orioles scored a run in the eighth on an error—Mantle's.

"I was so nervous from the ovation the fans had given me I didn't know what I was doing," Mantle said, explaining his bad judgment and bad throw on his miscue. "I was in a fog, and all I heard was Dooley Womack yell, 'Home,' and I just threw.

"It sure would have been pretty tough to hit the homer, then make an error that lost the game."

## Soph Halfback Top Performer For Cal Bears

BERKELEY (AP) — Sophomore halfback Paul Williams, most impressive performer for the California football varsity in its 12-6 victory over the alumnio, probably must miss the final week of Spring practice.

After running for 68 yards ind eight carries last Saturday, Williams had to be helped off the field in the second quarter with a charley horse. He had scored the Varsity's first touchdown earlier in the period from one yard out, capping a 76-yard drive that took 13 plays.

In the third period, sophomore quarterback Rick Telegan engineered his second touchdown drive which provided the score that offset the Alumni touchdown in the fourth quarter.

## Neil Cummins Captures Track Title

Urbano Boucsieguez in the A division and a pair of twins in the C division paced Neil Cummins Elementary School to the team title in the ninth annual Redwood Elementary Track and Field Meet at Redwood yesterday.

The top two places in the dashes and the top three finishers in the other events qualified for the Marin County meet at San Rafael High School Saturday.

Boucsieguez won three events and had a hand in Redwood's winning 440-yard relay team. He took the 50-yard dash, the long jump and the shot put in his division.

Chris and John Firstenfield, a pair of Class C twins, won two events each for Neil Cummins. John won the 50-yard dash and 660 run and Chris took the 100-yard dash and the long jump, winning the jump on a leap of 17-0.

Neil Cummins won easily, piling up 118 points to Kent's 48. Third was Del Mar with 38, followed by Ross, 35 and Hall, 7.

## Market Feels Slump In Active Trading

NEW YORK (AP)—The stock market retreated again late this afternoon. Trading was fairly active.

Here was the picture near the close:

The market started down almost from the start and widened its losses gradually as the session continued.

Losses of about 3 points for Du Pont and more than 2 for Eastman Kodak depressed the industrial average. Other blue chips affecting the popular averages were General Electric and Union Carbide, each down a point or more.

An additional note of weakness occurred late in the day when Pfizer sank more than 4 points and Schering more than 3, apparently in reaction to hearings in Washington on competition in pharmaceuticals.

Some of the glamor stocks also were clipped back. Control Data, a sharp loser in early dealings, reduced its loss to a fraction.

The most active issue was American Motors, up a fraction.

Also active and down about a point were SCM adn Ara Inc. Heavily traded gainers, Thiokol and Universal American, rose more than a point each.

Anaconda and General Foods, each up more than a point, were blue chips bucking the trend.

Eastern Air Lines lost more than 2.

Prices were irregular on the American Stock Exchange.

### San Francisco Air Patrons Top Million

SAN FRANCISCO (AP)—Air passengers through San Francisco's International Airport totalled 1,018,806 in March, only the second time the total topped a million.

George F. Hansen, airport general manager, said the total was exceeded only by 1,061,279 in June, 1965.

### Correct Time For Investing Class

An error was made in announcing the McDonnell and Co. investment class for women at the Marin Art and Garden Center, Ross tomorrow and the following Tuesday at 3 p.m.

Correct time for the class is from 1 to 3 p.m. both days.

### NEW SAFETY SEAT

Three-year-old Tommy Feles of Royal Oak, Mich., tests the new safety seat for children which will be offered by General Motors Corp. on their 1968 models. This device fits over a regular seat and held firmly in place by a standard seat belt. (UPI Telephoto)

## Credit Card Society Vs. Inflation

By JOHN CUNNIFF

NEW YORK (AP) — As the advance agent of the cashless society, the credit card hardly has tried to hide its identity. It is known now to millions of Americans.

It has trumpeted its presence in countless advertisements, been promoted through trading stamps, touted by skywriters, offered to names culled blindly from college class lists.

And, aside from having given a lot of people the false idea that the dollar bill will be obsolete, it has provoked or accompanied a controversy that throbs in the once conventional world of banking, since banks are issuing most of the cards.

Early this year a banking executive said the little money cards were being made available "promiscuously," without regard to traditional banking practices.

The Federal Reserve is concerned with their possible link to inflation, the thought being that, since a credit card always comes back into your hands after use and a dollar doesn't, overspending might thus be encouraged.

Another banker warns that the credit card society may indeed be the forerunner of the cashless society because so many people will overspend they'll have no money left anyway.

Some bankers, in fact, have declined to get in on what they call the card craze. As a substitute for the card's line of credit, these bankers permit overdrafts of regular checking accounts. Thus the overdraft, once a violation, is now sometimes a right.

These are among the present maneuverings and controversies that may well be the predecessors of the checkless and cashless society. They are part of an evolution to automation. The outcome isn't clear, but the card is its present symbol.

Once these cards were associated mostly with dining, entertainment and travel. But the hundreds of cards issued by banks can do anything money can do except light cigars.

Already the card has become a major form of installment credit through arrangements between banks and department stores. Both buyer and seller benefit. The buyer obtains credit through possession of the card. The seller receives full payment from the bank, which then collects the "easy payments."

This process, too, is evolving. The many credit cards could, conceivably, be replaced someday by a universal card good almost anywhere. This card would be a person's chief identification. It might even carry his Social Security number.

If such a world comes about, the American Bankers Association was told at a convention, an individual might not need to enter a bank for years at a time.

Those bank-free days, however, are years away.
